## TOGA NOW NEAR KENYON'S GRASP

Politicians See End Ahead in Iowa's Deadlock.

Life Young's Opposition for Taft Hurting Him.

Special Primary Idea Given Up by Supporters.

(BY DIRECT WIRE TO THE TIMES.)  
DES MOINES (Iowa) Jan. 31.—[Exclusive Dispatch.] When W. S. Kenyon received thirty-six votes for United States Senator today, politicians agreed that his election was probable and it is their opinion that it will occur about Thursday.

Today Judge Kenyon needed but ten votes, but if all of the members are present when election comes it will take eighty. If he is elected the remainder of his votes must come from the stand-patters who are loyal to Judge Young.

The increase of Kenyon's vote today was due to the withdrawal of T. B. Funk from the race. Funk had polled as high as thirty-five votes, but his strength was on the verge of disintegration when he withdrew. Some of his managers expect to try to rehabilitate his candidacy, but politicians believe it a futile plan.

Senator Young's supporters held a long caucus this morning to consider the advisability of leaving him at once, but it was decided not to do so. A large delegation of stand-patters, including former Gov. Jackson and other local men, urged the stand-patters to stick by Young, despite his fight against President Taft, and it was decided to remain steadfast for the present.

Judge Kenyon is on his way to Iowa and will arrive tomorrow probably, and it is predicted that upon his arrival the opposition will go to pieces. There has been suggestion of a dark horse emerging from the Young supporters, and A. J. Thomson, of Ames, former Congressman, A. F. Dawson and others have been mentioned in connection with the race. Politicians do not believe that the plan to defeat Kenyon that way will be successful.

The contest now has narrowed to Young and Kenyon, and the Young supporters have abandoned the special primary idea on which Senator Young depended for his sole chance for election.

## MONTANA POLITICS.

NO SENATOR AS YET.

(ASSOCIATED PRESS NIGHT REPORT.)  
HELENA (Mont.) Jan. 31.—Today for the first time since the senatorial contest began, the combined votes of T. J. Walsh and W. J. Conrad, the leading Democratic candidates, were sufficient for election had they been centered on one man. Conrad polled the highest vote he has received during the session, and Walsh, a close second, followed him. It is reported tonight that the Walsh supporters have sent emissaries to Norman E. Mack and to W. J. Conrad in an effort to secure an endorsement for Mr. Walsh.

## BLACKS FACE; TRACKS HUBBY.

St. Louis Woman Gets Spouse "With the Goods" by Clever Trick.

Now a Divorce Suit Is in Order.

(BY DIRECT WIRE TO THE TIMES.)

ST. LOUIS, Jan. 31.—[Exclusive Dispatch.] While Frank Kompa was riding home from work last night, his wife sat in a street car seat directly across the aisle from him, but he did not recognize her, because her face was black. With the aid of her friend, Mrs. Margie Flowers, Mrs. Kompa had applied a coat of stove polish to her countenance, giving herself the appearance of a negro. Her head she covered with a shawl which covered her hair.

Kompa looked at her at intervals, but she never turned her head his way. When he got off the car, his disfigurement behind her, he walked to her friend's house. They talked Kompa to No. 1442 Warren street. After he entered the house they saw him and a woman moving about in a room in the first floor.

From neighbors they learned that the woman was thought to be Kompa's wife. Mrs. Kompa, after washing the stove polish from her face, went to the north market street police station and asked that her husband and the other woman be arrested. Both were taken to jail.

## FUNERAL MOST IMPRESSIVE.

Thousands Gather at Chicago for Last Ceremonies Over Remains of Mr. and Mrs. John G. Neumeister.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Jan. 31.—[Exclusive Dispatch.] Impassioned ceremonies, witnessed by thousands, who gathered in Madison Temple, Dearborn avenue and Washington place, attended the funeral of John G. Neumeister and his wife, held today under Masonic auspices.

The two coffins, side by side, were on a raised platform, which was banked with roses. The temple was crowded with friends of the deceased and for blocks outside the streets were lined with carriages and automobiles. The funeral oration was delivered by Emil Roehrer, a lifelong friend of Mr. and Mrs. Neumeister. The ceremonies were in accordance with the Masonic ritual and were most impressive.

## EARLY CLOSING FOR SUNDAY; 8 P. M. FOR REAL ESTATE.

## Portraits of Missing New York Heiress.

Miss Dorothy Arnold,

who disappeared last December and for whom search is under way, with kidnapping, suicide and foul play theories advanced to account for mystery.

## Last Resort.

## PARK LAKE TO BE DRAGGED FOR BODY OF MISSING ARNOLD GIRL.

Relatives of New York Heiress Who So Mysteriously Disappeared Last December, Receive Information Apparently Pointing to Her Death—Gentlemen Friends of Young Woman Brought Into Case by Detectives.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Jan. 31.—[Exclusive Dispatch.] Although it was practically decided yesterday that the police should drag the lake in Central Park for the body of Miss Dorothy Arnold, who disappeared December 12, no movement in that direction was made today.

Relatives of the young woman received what they believe to be trustworthy information that she was seen at the shore of Park & Tilford, shortly after 10 p.m. on the night of her disappearance. This actually confirms the theory held by her father that she went into Central Park and fell into the lake or was murdered and her body disposed of in that manner. The lake has been frozen over almost continuously since December 12.

For the first time one of the friends of Miss Arnold has been brought into the case by her family. He is George S. Griscom, Jr., of Pittsburgh, who corresponded with Miss Arnold. He has been interviewed in Europe twice on the disappearance, once by friends and once by John W. Arnold, a brother of the missing heiress. Mr. Keith, attorney for the family, declared that he had satisfied those interested that he knew nothing of the disappearance of the girl or her whereabouts.

Mr. Keith also declared, with a good deal of emphasis, that Mrs. Arnold had no information concerning her daughter that was not shared by the other members of the family, and that she never turned her head his way. When he got off the car, his disfigurement behind her, he walked to her friend's house. They talked Kompa to No. 1442 Warren street. After he entered the house they saw him and a woman moving about in a room in the first floor.

From neighbors they learned that the woman was thought to be Kompa's wife. Mrs. Kompa, after washing the stove polish from her face, went to the north market street police station and asked that her husband and the other woman be arrested. Both were taken to jail.

## HALF-A-MAN WANTS WIFE.

Indianapolis Mayor Asked to Find Helpmate for Old Soldier With One Leg, One Arm and Weak on Nose.

(BY DIRECT WIRE TO THE TIMES.)

INDIANAPOLIS (Ind.) Jan. 31.—[Exclusive Dispatch.] In order to lessen the work incident to conducting the municipal matrimonial bureau, Mayor Shank is sending out a typewritten list of all persons who have applied to him for husbands or wives. The list will be corrected from day to day, and each person applying for the Mayor's assistance as a matchmaker will receive one of the lists. The Mayor's office force has found it impossible to send a personal letter to each applicant and even the form letter is cumbersome.

## CHAUFFEUR SUES HEIRESS.

Says Young Kansas City (Kan.) Woman Married Another After Promising for Two Years to Be His.

(BY DIRECT WIRE TO THE TIMES.)

KANSAS CITY (Mo.) Jan. 31.—[Exclusive Dispatch.] Mrs. Nellie Overpeck, a wealthy young married woman of Kansas City, Kansas, was sued today for \$10,000 damages by Thomas Moore, a chauffeur, because she did not marry him as he says she promised to do. Mrs. Overpeck is a daughter of Mr. and Mrs. John W. Mahoney, who were killed in an automobile accident in this city last year. She is executor of her father's \$100,000 estate. In his petition filed in the district court of Wyandotte county today Moore avers that Miss Mahoney was engaged to marry him for two years and that she suddenly changed her mind and married Christian Overpeck, an engineer. Moore's petition refers to many love letters from Miss Mahoney.

## MEXICO.

(Continued from First Page.)

about a dozen rifles with a guard equal to that number. Americans in Tia Juana say that the native Mexicans are not used to handling firearms and that should an invasion be made by the victorious troops from the coast end of Lower California there would be no regular troops of rurales ready to replace them. This would be easy picking for the invaders. For this reason American property on this side of the line will be protected by United States troops.

## RAGMUFFIN ARMY ON MOVE, LEAVING SPIES.

(BY DIRECT WIRE TO THE TIMES.)

CALEXICO, Jan. 31.—[Exclusive Dispatch.] Leaving a handful of spies at Mexicali, still in their possession, the sixty insurrectors under the anarchist, Berthold, broke camp near John Little's ranch, five miles southwest of here on the American side, last night and headed southwest.

Thirty-two of the "Don Work" men passed Sherman's Ranch, seven miles southwest, Monday evening, the two leaders mounted, and the lopes following about. They had one wagon and harness team.

The other twenty-eight, mounted, joined them this morning, and tonight the rabble is camped near the head of Laguna Salada, or Lake Litchfield, twenty-two miles southwest of Calexico. At that place the insurrectors hope to receive reinforcements from the malcontent town of Campos. It is not known whether they intend making a stand there against the pursuing Federal forces, or whether they will take the train from here tomorrow, or continue to Ensenada, which town they have located they will seize.

Mexican residents of Mexicali are still terror-stricken, afraid to remain on their side of the international line. No attempt is being made to collect customs on the Mexican side.

Berthold has brazenly announced that his gang will be to Mexico what the I.W.W. has been to Colorado, Idaho and Nevada.

## BOOZE KEEPS UP COURAGE OF ARMY.

(ASSOCIATED PRESS NIGHT REPORT.)

CALEXICO, Jan. 31.—[Exclusive Dispatch.] The insurrectors made no move upon Mexicali today. They still maintain their camp about seven miles southwest of Mexicali and have recruited a large number of Cocopah Indians.

Rain has been falling all day, but stimulated by the contents of fifty bottles of whisky and as many bottles of other liquor taken when they sacked Mexicali on Monday, the insurrectors did not seem to mind the weather.

The members of the little band had been up two nights, and their leaders, El General Leyva, and Simeon Berthold, the Los Angeles Socialist, allowed them to rest and sleep all day. Scouts, however, were sent at intervals to Mexicali to keep watch on the Mexican authorities, who resumed charge of the customhouse when the insurrectors abandoned the town yesterday. Leyva and Berthold declared that before leaving Mexicali they had ordered the Federal officials to refrain from collecting customs and that the Mexicans disobeyed this order, today, the rebels asserted they would come back tonight and punish the offenders. Pending the arrival of the United States troops, Sheriff Meadows will maintain his guard of fifty armed deputies. The arrival of the United States troops, however, is expected to be a matter of some time. The rebels are said to be in possession of a large number of rifles and cartridges. They are also said to be in possession of a large number of horses and mules. They are also said to be in possession of a large number of blankets and other supplies. They are also said to be in possession of a large number of foodstuffs. They are also said to be in possession of a large number of other supplies.

## FORTIFYING BULL RING AT TIA JUANA IN FEAR.

(ASSOCIATED PRESS NIGHT REPORT.)

SAN DIEGO, Jan. 31.—In anticipation of an attack on Tia Juana, Mexican officials of that town are making the bull ring defensible. It is stated that the city is being fortified by the way from Ensenada to Tia Juana, and will arrive there tomorrow afternoon. Extra men are being employed by the San Diego and Arizona Railroad today from San Antonio, Tex., to the Mexican side of the line.

In San Diego this afternoon the Governor of Lower California was quoted as saying that 200 Mexican soldiers are on the way from Manzanillo to Ensenada, but this statement is not generally believed here. The whereabouts of the rebel band that left Mexicali yesterday is unknown, but it is claimed the band, which is said to number sixty men, is making its way westward toward the objective. A close watch will be maintained at Tia Juana and along the line of the railway tonight.

## REBEL ARMY GROWING TO FORMIDABLE FORCE.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Jan. 31.—Gustavo A. Madero, brother of the revolutionary leader in Mexico, arrived in Washington today from San Antonio, Tex., where he has been in close communication with the insurrectors.

Senator Madero said that within the last month the army of insurrectors had increased from 600 to 15,000 men. He expressed indignation at the alleged torture of prisoners by Gen. Navarro of the Federal army.

Reports that the revolutionists of Mexico were planning to cut the telegraph line between Chihuahua and the frontier, were confirmed in a telegram received by the State Department from American Vice Consul Leonard at Chihuahua. It is rumored that Vice-Consul Adds, that two passenger trains are being held and that troops are rushing to the spot.

## INSURRECTORS HOLD TWO MEXICAN TOWNS.

(ASSOCIATED PRESS NIGHT REPORT.)

EL PASO (Tex.) Jan. 31.—[Exclusive Dispatch.] San Buena Ventura are held by the insurrectors, according to dispatches from Casas Grandes tonight. Col. Rabago reached Casas Grandes early today with 150 of the 500 men who were expelled from Wilmington, Dec. 21, and who are now being held in the city. Four battalions have been fought, in three of which the insurrectors were successful. Col. Rabago losing the two rapid-fire guns and four pieces of light artillery, with which he invaded the Caliente district.

San Buena Ventura was abandoned

to the insurrectors on Monday and Gail and her family fled.

Today Federal officials were busy preparing Casas Grandes for a long siege, gathering provisions and fortifying the town.

Today United States Consul Edwards made formal demand on the Mexican authorities at Juarez for an immediate hearing in the case of William Baykin, the American negro porter, arrested Saturday night for complicity in the case of the stolen ammunition found on a south-bound train. The hearing will be concluded tomorrow.

## EVELYN ARTHUR SEE INDICTED.

Seven Counts Reported to Involve Chicago "Prophet," a Married Woman and Two Youthful Priestesses.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Jan. 31.—[Exclusive Dispatch.] An indictment of Evelyn Arthur See on serious charges is reported to have been voted by the January grand jury. The indictment, according to a report from the Criminal Court building, contains seven counts, involving the high priest of the "Abominable Rites," a married woman and two youthful priestesses, Mildred Bridges and Mona Rees. If See is convicted in the state courts a long prison sentence awaits him.

The fact that the State's attorney secured the postponement of See's trial this afternoon at Judge Himes' trial in the Des Plaines street police station was taken as confirmation of the report that the indictment had been voted. A word sent to Judge Himes indicated that the prosecution intended to drop the municipal court cases and take See into the State Courts.

Pending the returning of the indictment to the criminal court, Judge Himes continued the case against See until Friday.

## White Death.

FOUR PERISH IN TUMBLING SNOW.

THREE GIGANTIC AVALANCHES IN UTAH CAMP.

(BY DIRECT WIRE TO THE TIMES.)

SALT LAKE CITY (Utah) Jan. 31.—[Exclusive Dispatch.] Three gigantic snowslides swept Alta, a mining camp twenty-five miles southeast of here today, killing four men and entombing twelve others. The dead are: VICTOR PEARSON, FRANK HANLEY, DANIEL WEINGARDEN, ALVA CLAYLE.

The first three were caught in the first slide, which occurred at the property of the Utah Cattle and Horse camp at 5 o'clock this morning. Clayle was killed at the third slide, which occurred at 3:30 o'clock this afternoon at the Peruvian mine, eight miles northeast from the scene of the first disaster.

The second slide, 300 feet wide and fifty deep, swept the surface of the mountain, the boarding and bunk houses and shops were crushed beneath the mass and Pearson, Hanley and Weingarden, including Superintendent Erickson, were imprisoned in the tunnels, but were released unhurt after several hours.

A second slide, 100 feet deep and 1000 wide, occurred at 11 o'clock, breaking in the side mountain facing Alta. No one was hurt.

In the third slide an old newspaper boy by the name of Bowler was hurled 200 feet down the mountain side. John Bowler, his companion, had gone into the tunnel, otherwise he too would have been killed. Bowler's fall did not stop Clayle's body, sticking feet foremost out of the snow. Bowler extricated Clayle and went to the Columbus Consolidated Copper property three miles away, spreading the news. On account of the danger it was decided to let Clayle's body alone until Wednesday.

Ski runners are on the way from Park City to Alta, and until they arrive, which will be tomorrow, definite news as to the extent of the imprisoned men's injuries will be unavailable.

## BIG GAME HUNT DE LUXE.

Paul K. Rainey Starts on Three-Year Expedition in Africa and India to Cost \$250,000.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Jan. 31.—[Exclusive Dispatch.] Paul K. Rainey, who returned only a month ago from a hunt in Mississippi and Alabama, on which he started soon after his return with Harry Whitney from the Arctic, will sail Thursday on the Mauretania on a new hunting expedition which may last for three years. He plans to hunt big game in Africa, India, Borneo and the Malay Archipelago.

It is the most ambitious hunting expedition yet organized by Mr. Rainey and will probably cost him \$250,000 before it is ended. A similar expedition is given to the trip by the fact that Mr. Rainey will represent the New York Zoological Society of which he is a member and the Smithsonian Institution of Washington in his hunting. For the former he will endeavor to capture animals alive while to the other he will send many of the trophies of his rifle.

Besides a battery of cameras he will take with him 100,000 feet of moving picture film in 500-foot lengths, and hopes to bring back life views of his hunts. With Mr. Rainey will sail Dr. M. E. Johnston, a naturalist by nature and physician by profession.

While Mr. Rainey is bearing all the expense of the expedition, which has been arranged with a magazine to publish a story of his travels in Africa. He said he would work on it as he traveled and that it probably would be ready by the time he reached Bombay on his return.

# Men --- Thursday --- Not Today

## We Place on Sale That \$14,000 Stock Ready-to-Wear Clothing of M. Goldsten, 324 S. Spring St.

Bought at Less than  
**50c On the Dollar**

M. Goldsten, a merchant tailor, located at 324 South Spring street, carried a high-grade representative line of ready-to-wear clothing for men. Goldsten wished to enlarge his tailoring business, therefore wished to dispose of his entire stock of ready-to-wear suits. This was done only after careful consideration. We were notified of the fact, and made a cash offer for the entire lot, which was accepted.

**The Finest Ready-to-Wear Clothing That Money Can Buy is  
Therefore Offered to You at an Average of Less  
Than Fifty Cents on the Dollar**

You must not confuse this line of suits with the ordinary kinds. Rather think of the highest grade clothing, the strictly handmade garments in the best establishments the country over—suits that sell at from \$20 to \$50 regularly. Beginning Thursday.

Every single suit in this purchase comes from the famous F. B. Q. Clothing Co. Note this fact—the labels in the suits read, "Just Right" Brand, for the F. B. Q. Clothing Company used this label when selling to more than one firm in the city. F. B. Q. means "Finest Beyond Question."

We predict this is going to be one of the greatest clothing sales that has ever been featured in the city of Los Angeles—strong statements, and yet we believe we are justified in making them.

**Over 400 Suits in the Lot—Every Suit Strictly Hand-Tailored—Every Suit of the Finest All-Wool Material—Plenty of Silk Mixtures, Blue Serges, Gray Worsteds and Many Fine Cassimeres—Every Size From 34 to 46 Will Be Included.**

**Remember:---M. Goldsten Carried Ready-Made Clothing as an Experiment Only**

He was very careful to secure only the very highest grade clothing. He selected this clothing with discriminating care, and we want to say that the men who attend this sale will have the opportunity of choosing from some of the finest suits that it is possible to secure, and the best of it all is that you buy them at an average that is, on the whole, less than 50c on the dollar. Thursday not today.

\$20 to \$22.50 Suits

**\$11.00**

\$25 to \$32.50 Suits

**\$15.00**

\$35 to \$37.50 Suits

**\$18.00**

\$40 to \$50.00 Suits

**\$20.00**

—Read every one of these prices again carefully. There is not a single misstatement. Suits of this character actually sell at these prices. It's a clothing event that will re-echo throughout the city. Don't let anything keep you away.

**Also Beginning Thursday, Not Today**

**Closing Out Our Entire Stock Well Known Silver Brand Collars at 75c a Dozen---By the Box Only**

**Going to Install Complete Stock Arrow Brand**

—Having decided to discontinue our line of "Silver brand collars," replacing them with a full and complete assortment of "Arrow brand" collars, we announce this startling sale.

—Nearly 1000 dozen of the celebrated Silver Collars in all the favored styles are to be thrown out in this sale at the ridiculous price of 75 cents a dozen. New stock complete and up-to-the-minute.

—With this one restriction, boxes will not be broken. This price is made by the dozen only, but what man is there who cannot use a dozen collars, especially when he buys them at such a ridiculous price. Customers will be allowed but three dozen at the price.

—Remember there are some 38 styles including the very latest advertised numbers, such as the Biplane, Monoplane, Howell, Halley and Comet as well as the more staple lines including Outpost, Export, Hunter, and dozens of others.

—The sizes range from 14 to 18 and in some of the numbers you will find quarter sizes.

**Remember 75c a Dozen Beginning Thursday Choice of Our Unrestricted Stock of Silver Brand Collars**

WEDNESDAY MORNING

**SAN FRANCISCO FIGHTING RATES.**

**Hard-Won Victory of Los Angeles Is Menaced.**

**Relocating Asked in San Joaquin Freight Order.**

**Northern Metropolis Jealous of Commercial Prestige.**

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Jan. 31.—[Exclusive Dispatch.] The struggle by Los Angeles to retain a trade territory, now worth \$15,000,000 annually, began here today when San Francisco commercial interests presented a petition for a rehearing of the San Joaquin Valley rate case before the newly organized state Railroad Commission.

Following a twelve-year campaign the Los Angeles jobbers secured a decision December 24, reducing freight rates from Los Angeles to lower San Joaquin Valley points, and, in a measure, removing the discrimination in favor of San Francisco. But Los Angeles has so far not enjoyed any benefit from the order. Before the new rates could be put in force San Francisco commercial interests brought back pressure to bear that the new railroad board suspended the rates and asked a rehearing on a motion to reconsider the case. The San Francisco petition was presented before the commission with its two members, Alex Gordon and J. M. Kachelman. The third member of the commission, Harvey D. Loveland, had filed a minority report against the former order in the case.

Pressure brought to bear by San Francisco commercial interests caused Fresno and Bakersfield interests to attempt an intervention in behalf of the Bay City.

San Francisco was represented by William R. Wheeler and Seth Mann, of the Traffic Bureau of the Merchants Exchange. F. P. Gregson, trade manager of the Associated Jobbers of Los Angeles, and E. G. Kuster, of the law firm of Kuster, Loh and Loh, represented Los Angeles. Sacramento was represented by G. T. Barley, manager of the Traffic Bureau. The Southern Pacific and Santa Fe railroads were represented, as were also the cities of Fresno, Stockton and Bakersfield.

Objection was made by Los Angeles to Fresno appearing in the case, the representatives of Los Angeles contending that inasmuch as Fresno was not interested nor concerned in the original case that city was not entitled to appear as one of the proponents of the petition for a rehearing. Fresno was finally allowed to appear as was a representative of Oakland.

Seth Mann opened for the petitioners. He said the former decision was discriminatory against San Francisco in favor of Los Angeles, for San Francisco, moving freight over a level and with water competition, must pay a lower rate for the ton per mile than Los Angeles, whose freight the valley must be lifted 5000 feet to the mountains.

Attorney E. G. Kuster opened the case for the Los Angeles jobbers. In opening remarks he made sarcastic reference to Fresno appearing in the case at, as he said, the "eleventh hour." He sought to induce Hill of Fresno to say that he had been urged to come into the fight by San Francisco's "cry for help." This statement Hill refused, saying that Fresno merely sought to conserve her own interests.

Kuster urged the commissioners not to decide upon a rehearing on any ground not based upon the testimony. He said:

"There is no reason to set aside the order. No party is entitled to a rehearing except Los Angeles, the original complainant in the case."

Kuster said that the people of the south were resentful at being brought up to San Francisco to defend the order of the board from the petition of their competitor. He criticized the use of Commissioner Loveland's minority report on the former hearing of the case, in toto, in the argument of Seth Mann, saying that it would force him to criticize the report of the commissioner.

The committee adjourned at 4:15 o'clock to convene again at 1 o'clock tomorrow, when Kuster's argument will be continued.

**TRIES TO ESCAPE PRISON.**

New Orleans Banker's Lawyers Spring Surprise After He Has Been Convicted and Sentenced.

(BY DIRECT WIRE TO THE TIMES.)

NEW ORLEANS, Jan. 31.—[Exclusive Dispatch.] William Adler, former president of State National Bank, was sentenced to a term of six years in the Federal penitentiary at Atlanta or imprisonment of funds of the institution he headed. A motion for a stay of sentence pending the taking of an appeal to the United States Circuit Court of Appeals on a writ of error was filed by the banker's attorneys and was released on bond. Adler's lawyers today sprung a surprise when in supplementary motion for a new trial they advanced the plea that one of the jurors had not been a lawful juror and therefore Adler had been convicted by a jury of only eleven men. It alleged that James A. Brennan sat on the jury when his son, A. Brennan, Jr., had been subpoenaed.

**POLITICIAN THREATENED.**

Her Fight Against New City Charter Leads to Anonymous Warnings of Doom to Come.

(BY DIRECT WIRE TO THE TIMES.)

MISS HAMMOND (ILL.) Jan. 31.—[Exclusive Dispatch.] Death threats were made today against Miss Virginia Brooks, a society girl, in connection with the adoption of a new city charter which she declares would do away with the grafters.

She laughed at the threats, and said that she had been surrounded by a mob of young men formed to intimidate her and kept close to her all day.

Hammond has been prescribed a course of treatment which would involve her in a city and in the payment of additional taxes on the Lincoln building.

She has made an active campaign against the entire campaign, and has spoken in all the public places and other places to the crowd and voters congregated there.

She declared that she would not be intimidated, and that she would continue her fight to the end.

# Happenings Along Pacific Coast.

## WATERS RISING NEAR STOCKTON.

**Flooding Threatens if Rains Continue.**

**Three Villages Reported as Partly Inundated.**

**Southern Pacific and Western Both Have Trouble.**

(ASSOCIATED PRESS NIGHT REPORT.) STOCKTON, Jan. 31.—With unprecedented flood water to the east of the city, the water is rising rapidly today.

Washouts on the lines of the Southern Pacific and Western Pacific, which have been reported as being in danger of backwater.

At Jenny Lind, above this city, the water is 5-6 feet higher than in previous years. Linden is under the highest water yet and Farmington is under three feet of water.

Mormon channel, which was overflowing slightly yesterday, sank four feet during the night, but is rising rapidly today.

## WATCHMAN CLEVER SMUGGLER.

**Caught at San Francisco He Admits Handling Over \$100,000 Worth of "Dope" in Three Years.**

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, Jan. 31.—(Exclusive Dispatch.) It developed today that one Fitzgerald, an old watchman at the Pacific Mail docks, poor and shabbily dressed, "has been carrying off from \$1000 to \$10,000 worth of opium from nearly every oriental liner arriving in this port for three years.

Fitzgerald had a book in which he kept accounts, not only of the opium which he in person smuggled from the ships in the harbor, but of quantities of the contraband drug smuggled by his partners in the nefarious work.

It is said Fitzgerald's books show that in three years he has smuggled ashore more than \$100,000 worth of opium. Just what has been his part of the profit of the illicit traffic is not known, but customs officials believe it has been large and that somewhere the old man has a large sum buried.

Although Fitzgerald has had free entrance to the oriental liners tied up at the various piers along his station for more than three years, he had never been suspected as a smuggler until Inspector Bennington intercepted him yesterday as he was leaving the Nippon Maru carrying his lunch basket.

GRAND JURY WITH A HEART. Oregon Inquisitorial Body Lets State Official Down Easy in Returning Indictment.

(BY DIRECT WIRE TO THE TIMES.) PORTLAND, Jan. 31.—(Exclusive Dispatch.) J. W. Bailey, state dairy and food commissioner, was today indicted by the county grand jury on a charge of publishing a monthly bulletin. No mention was made in the indictment of the mass of testimony presented before the grand jury to support charges of graft, incompetency and obstructionism. These latter charges are of criminal nature and Bailey has admitted petty grafting from the State.

The least material count was selection of out of party for Bailey, a member of the grand jury expressed it. Bailey is along in years and has held the office for several terms.

The Legislature is now considering resolutions to investigate his office.

"FRATS" FALL IN HARD LINES. Signed Statements Demanded From Sacramento High School Pupils As to Secret Society Affiliations.

(BY DIRECT WIRE TO THE TIMES.) SACRAMENTO, Jan. 31.—(Exclusive Dispatch.) Not relying upon the State law forbidding secret fraternities in the common schools, the Sacramento Board of Education today independently has adopted a resolution framed by a prominent lawyer with especial care as to its validity, and founded upon the general powers of the board to make regulations for the government of the schools.

In pursuance of this action, the superintendent of the high school demanded signed statements from all the pupils as to whether they were members of fraternities. Some of the pupils, being advised that the State law was being tested in the courts, refused to sign. They have been told now that nothing is to do with the matter and that they will not be allowed to make evasions. Others known to the principal as members of fraternities signed statements that they were not. Some of these have hastened to change their declarations.

Interesting developments are expected.

MISCEGENATION LAW. FINDS FAVOR IN NEVADA. (BY DIRECT WIRE TO THE TIMES.) RENO (Nev.), Jan. 31.—(Exclusive Dispatch.) A law designed to do away with the marriage of Caucasians and Asiatics was introduced in the Nevada Senate by Senator Holmes of Washoe county and will be passed in both houses of the Legislature without opposition.

The law is very plain in its terms and very short. It absolutely prohibits marriages of this kind and makes it felony for any magistrate or clergyman to perform such a ceremony. It also prohibits the issuance of marriage licenses by the County Clerk in such cases.

The introduction of the bill is the outcome of the marriage in this city recently of a white woman and a Japanese.

CHOKES ON SMOKE. MINER'S STRANGE END. (ASSOCIATED PRESS DAY REPORT.) GRASS VALLEY, Jan. 31.—The first case on record in this district where a miner died as the direct result of inhaling powder smoke has been recorded in the instance of James Martin, who died at 8:30 o'clock yesterday morning. Martin worked Saturday as usual and after the blast had been fired he went into the drift to commence work. The powder smoke was still thick and he was partially suffocated, but managed to make his way out into the fresh air. He went home, and his fellow workmen did not know that he was ill until the following day. A physician was called but too late, however, and a short time later the man died.

## "TECH" SCHOOL FOR THE SOUTH.

**BILLS INTRODUCED IN SENATE AND LOWER HOUSE.**

**Million-Dollar Appropriation Provided by Senate—Offer of Free Site at San Pedro Received From Mrs. D. E. Dodson—Throop Head Pleads For Delay.**

(BY DIRECT WIRE TO THE TIMES.) SACRAMENTO, Jan. 31.—(Exclusive Dispatch.) The start for the California Institute of Technology was made by the Los Angeles delegation this morning, when duplicate bills were presented by Senator Gates and Assemblyman Farwell, providing for an appropriation of \$1,000,000.

Almost at the same instant the bill was introduced in the Assembly, Mark Keppel, who has charge of the project here, received word that Mrs. D. E. Dodson, who offered a university site valued at \$250,000 at San Pedro, and comprising 400 acres, had renewed her offer for a technical school as well as a university.

A few minutes later Assemblyman Cattell received a message from F. A. B. Scherer, president of Throop Polytechnic at Pasadena, asking delay on the measure "on account of Throop and Pasadena," until he arrives tomorrow. Cattell says he does not believe the coming of President Scherer means hostility to the Institute of Technology.

The bill prepared by Keppel provides for the establishment of the school in either Santa Barbara, Ventura, Los Angeles, San Bernardino, Riverside, Orange, San Diego, or Imperial counties, and designates its name as the California Institute of Technology.

It is to be governed by a board of eleven regents serving nine years each, who shall elect a president at a salary of not less than \$5000 a year. The Governor is required to convene the board for organization within thirty days after the bill passes. Before January 1, 1912, the regents shall have chosen a site for the institution, which shall be free, and of not less than 100 acres.

The purpose and scope of the institution are thus described: "The California Institute of Technology shall be open for the admission of graduates from any high school, or of any person having the equivalent of four years of high school education, under such conditions as may be prescribed by the board of regents."

"The course of study shall embrace instruction in the various branches of agricultural, commercial and industrial and technical work, and shall include the study of the history and government of the United States and the world."

The board of regents of the California Institute of Technology are hereby given all necessary power to carry into effect the provisions of this act, and it is hereby expressly declared that the provisions of this act shall be liberally construed to the end that justice may be done and that the work of the school may prosper."

Keppel has withdrawn his support from the Bohnett bill to change the basis of apportioning school funds from a census to the average daily attendance, because he could work no reforms in the new basis that would penalize San Francisco schools. The bill will be allowed to die in committee.

PAD LEGISLATION INNING. Initiative, Recall and Referendum Constitutional Amendment to Be Considered by Legislature Today.

(BY DIRECT WIRE TO THE TIMES.) SACRAMENTO, Jan. 31.—(Exclusive Dispatch.) Direct legislation is to have its inning tomorrow before the Senate Committee of which Senator Gates is chairman. His constitutional amendment on the initiative, recall and referendum is to be considered and its advocates will include Dr. John Haynes, Milton U'ren, of San Francisco and former Gov. Pardee. William Denman of San Francisco, speaking for the State Bar Association will oppose the recall of the judiciary, and others will aid him.

Tonight the Assembly Direct Legislation Committee on the initiative, recall and referendum, the Clarke constitutional amendment on the Initiative, Recall and Referendum, which is the same as Gates', except that Clarke has added a provision that the incumbent must be recalled by a yes and no vote or no one is elected. Gates favors the innovation and will seek to advance the Clarke amendment over his own.

The Municipal corporations committee of the Assembly tonight reported on Griffin's laborite measure forfeiting the charter of any corporation that removes suits against it to the federal courts.

The Assembly Committee on Labor and Capital also reported on Griffin's blacklist bill, which makes it a felony to blacklist an employee.

WORK OF THE LEGISLATURE. Black's Commission Government Bill Passes Senate—Regulation of Explosives Introduced in Both Houses.

(ASSOCIATED PRESS NIGHT REPORT.) SACRAMENTO, Jan. 31.—The Sen-

ate at its afternoon session today passed Senator Black's bill providing for the commission form of government for municipalities of the fifth class. The bill leaves the adoption of the plan to the voters of the cities and provides a limit of \$1500 a year as a salary for each commissioner.

A bill, introduced by Senator Tyrrell, providing that the commissioners of the Bureau of Labor Statistics shall hold office at the will of the Governor, was passed by the Senate. The office will remain in San Francisco.

Senator Stetson's bill, creating an apportionment commission, went to a third reading after an hour's routine in the adoption of a number of amendments offered by the author of the bill.

Assemblyman Rutherford's joint resolution, protesting against the Federal government entering into a contract with a power company represented by W. P. H. Hannon for the diversion of the waters of Lake Tahoe for power and irrigation purposes, was passed in the Assembly. In the Senate, on motion of Senator Hannon, it is referred to the Committee on Federal Relations, the Senator urging that it be amended to include a more vehement protest.

A bill drawn by former Under-Sheriff Jack Birmingham, of Contra Costa county, to place restrictions about the manufacture and sale of explosives, was introduced the Assembly by Assemblyman Jones, and in the Senate by Senator Martineau.

SUFFRAGETTES CAN'T AGREE. Too Many Leaders in Oregon's Campaign for Votes for Women—State Resents Outside Help.

(BY DIRECT WIRE TO THE TIMES.) PORTLAND (Or.), Jan. 31.—(Exclusive Dispatch.) Mrs. Emma Smith DeVoe, president of the National Council of Women Voters and of the Washington Equal Suffrage Association of Seattle, and Mrs. May Arkwright Hutton, president of the Washington Political League of Spokane, are both in Portland and the leaders of the suffrage movement here, are almost embarrassed by their riches.

The worst of it is that the two leaders do not like each other, and Mrs. Hutton has come out with an interview against Pacific Coast suffragists receiving aid from the outside. As Mrs. DeVoe came here expressly to speak in behalf of the cause, Mrs. Hutton's statement is evidently for her.

Mrs. Abigail Scott Duniway, leader of the Oregon suffragists, is also against outside aid. "As long as we Oregon women conduct our own campaign in our own way, we will get along well," said Mrs. Duniway. "But the suffrage movement here has never recovered from the onslaught of old maids and grass widows sent out from New York to run the campaign for us some years ago."

MAYOR VS. POLICE JUDGE. Hot Fight Over Attempt of Portland City Executive to Remove Magistrate Ends in Appeal to Courts.

(BY DIRECT WIRE TO THE TIMES.) PORTLAND (Or.), Jan. 31.—(Exclusive Dispatch.) The trouble over the Portland municipal judgeship, which has developed into one of the most serious political rows the city has known, reached a climax today when Mayor Simon issued an order dismissing Judge Tazewell from office and a second order appointing Major J. P. Kennedy to the position.

A few hours after these orders were issued Tazewell obtained from Circuit Judge McGinn a restraining order which prevents the Mayor's proclamation from being effective until next Monday, when the issue will be fought out in the Circuit Court.

Tazewell declares that Simon has no authority to remove him and proposes to fight the issue to a finish. As a legal basis for the action the Mayor filed technical charges of irregularities against Tazewell, but behind these is the alleged agreement of Tazewell on his appointment to resign February 1, this agreement now being denied by Tazewell.

COUNTY SUES ON BONDS. WINCHESTER JUMPS BAIL. (BY DIRECT WIRE TO THE TIMES.) SACRAMENTO, Jan. 31.—(Exclusive Dispatch.) A suit to collect \$5000 bail bonds furnished for the appearance of George A. Winchester in court which have been declared forfeited by Superior Judge Hughes, will be instituted shortly by the District Attorney.

Neither C. Baende nor W. Cannady, the bondsmen, appeared before Judge Hughes to show cause why the \$5000 should not revert to the County Treasurer, and as the time for such appearance expired at midnight, steps will be taken to collect the bonds. The suit will determine the genuineness of the bonds. The suspicion has been freely expressed that the bonds are worthless.

NECK BROKEN BY BLOW. STRANGE MURDER CASE. (ASSOCIATED PRESS DAY REPORT.) SAN FRANCISCO, Jan. 31.—Robert Pierce, a young boat builder, who according to report received by the police, was found dead in a taxicab in front of his home here at 2 o'clock yesterday morning, died from a broken neck. He was knocked to the pavement by a car, and Charles W. Dunn, a carpenter, was arrested yesterday and charged with murder. He and Pierce are said to have quarreled in a saloon and to have come to blows on the street outside.

## FEAST MARKED BY KING'S WAY.

**Newman Club Ladies' Night Notable Gathering.**

**Bishop Speaks of Spirit of the Long Road.**

**Compares the Missions With Pagan Structures.**

The annual ladies' night of the Newman Club of Los Angeles was held last evening in the banquet hall of the Alexandria. The room was a gorgeous scene. The big table where covers for fifty-five guests were laid was made up in a remarkable resemblance to the famous El Camino Real or King's Highway of olden times.

Running down the center of the table was a sandy strip portraying the highway, and at intervals were paper mache buildings which depicted the missions of San Fernando, Santa Barbara, San Gabriel and the Los Angeles mission at the Plaza. So exact were the imitations that those familiar with the architecture of the missions called the names of the different paper mache figures at sight.

The windows of the missions were shown in colored glass and from the interior glowed bright lights. The Camino itself was marked by upright iron posts with bells hanging downward exactly as the real highway. The guests were unanimous in their declaration that the decorations were the most beautiful and apropos that they had ever witnessed.

President John A. Conaty of the Newman Club was toastmaster and following a delicious menu he introduced Francis S. Montgomery, a younger brother of the late Archbishop Montgomery, who read an original poem on El Camino Real which was greatly appreciated. The text of the poem was printed on the back of the menu furnished each guest.

Bishop Conaty was the last speaker and devoted considerable time to the religious import of the famous highway. In the course of his address he said: "The spirit along that King's highway was the spirit of consecrated duty, of the uplifting and developing of the Indian tribes along the lines of the highest Christian life. Happy, prosperous communities of self-supporting Catholic Indians, living a simple but industrious life, cultivating the land, enjoying peace and plenty; strong in the strength of the Christian home and proud in the practice of Christian virtue—this is the story which El Camino Real tells as the result of the religious training of the padres. Whether at San Diego, Capistrano, Santa Barbara, Monterey or Sonoma, one feels that the atmosphere is a holy one for there the holy men planted the cross of Christ, erected the altar and offered the saving sacrifice of the Eucharist, and the blood and sacrifices of the men who had in life but one thought and that to do the will of God in the salvation of men."

"El Camino Real and the missions which it links one to the other is a glorious chapter in the history of the Catholic Church. The student visits the great highways of the American West and studies with delight the tombs found by the highway as well as the pieces of wall which remain to tell of gateway and tower and fortification. Rome, Athens, Egypt have their monuments which give delight to all who seek to know the history of the past. The ruins of a past civilization tell the story of the days of pagan glory."

"Our California missions teach the lesson of Christian civilization brought to these western shores, and should stir the enthusiasm of the student who cannot fail to find sources of surprise and admiration in the work done under such adverse circumstances."

Those present were: Bishop Conaty, Rev. Francis J. Conaty, Rev. J. S. Glan, D.D., Mr. and Mrs. John Alton, Miss Alton, Dr. and Mrs. H. M. Rooney, Mr. and Mrs. J. G. Donovan, Miss Agnes Genahl, Mr. and Mrs. D. Coyne, Mr. and Mrs. W. J. Hynes, Mr. and Mrs. D. F. McGarry, Mr. and Mrs. E. W. Boehme, Mr. and Mrs. J. R. Grant, Miss Macintosh, Mr. and Mrs. J. P. Delaney, Mrs. Mary J. Schabert, Mr. and Mrs. Francis D. Montgomery, Mr. and Mrs. W. J. Wilkinson, Dr. and Mrs. P. G. Cotton, Mr. and Mrs. James C. Kays, Mrs. John F. Francis, Mr. and Mrs. John J. Fay, Jr., Miss Sabich, Miss Lynch, Miss McDermott, Miss Stevens, Mr. and Mrs. J. Bergin, Mr. and Mrs. C. Whipple, Dr. and Mrs. A. J. Scholl, Mr. and Mrs. Phillip Forre, Mr. and Mrs. George Green and J. E. Hannon.

LEVEE BREAKS. VISALIA, Jan. 31.—The levee along the St. John's River, north of this city, broke in several places today, flooding a wide area.

Heavy rainfall continues in the mountains and higher water is expected. Visalia is in no danger.

## ARE YOUR KIDNEYS WEAK?

**Thousands of Men and Women Have Kidney Trouble and Never Suspect It**

Nature warns you when the track of health is not clear. Kidney and bladder troubles compel you to pass water often during the day and get up many times during the night.

Unhealthy kidneys cause lumbago, rheumatism, catarrh of the bladder, pain or dull ache in the back, joints or muscles, at times have headache or indigestion, as time passes you may have a sallow complexion, puffy or dark circles under the eyes, sometimes feel as though you had heart trouble, may have plenty of ambition but no strength, get weak and lose flesh.

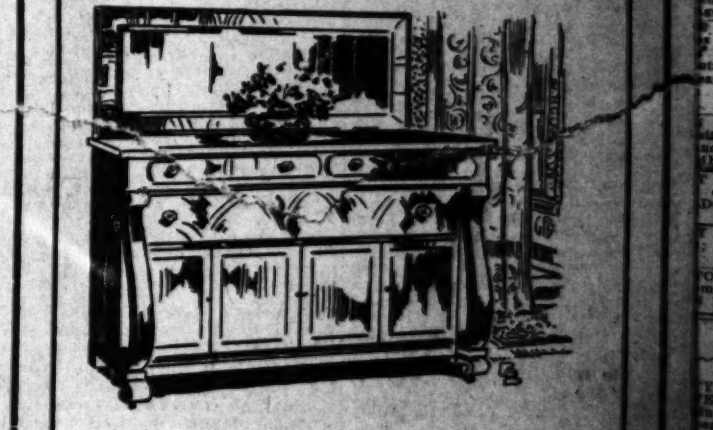

If such conditions are permitted to continue, serious results are sure to follow: Bright's disease, the very worst form of kidney trouble, may steal upon you.

PREVALENCE OF KIDNEY DISEASE. Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physician, who usually content themselves with doctoring the effects, while the original disease constantly undermines the system.

A TRIAL WILL CONVINCE ANYONE. If you feel that your kidneys are the cause of your sickness condition, bearing in mind that Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy, because as soon as your kidneys improve, they will help the other organs to health. In taking Swamp-Root, you afford natural help to Nature for Swamp-Root is the most perfect healer and gentle aid to the kidneys that has yet been discovered.

SWAMP-ROOT IS PLEASANT TO TAKE. If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at all drug stores. Don't make any mistake but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., which you will find on every bottle.

EDITORIAL NOTICE.—To prove the wonderful merits of Swamp-Root, both sent absolutely free by mail. The book contains many of the thousands of letters received from men and women who found Swamp-Root to be just the remedy they needed. The value and success of Swamp-Root is so well known that our readers are advised to send for a sample bottle. Address Dr. Kilmer & Co., Binghamton, N. Y., be sure to say you read this generous offer in the Los Angeles Daily Times. The genuineness of this offer is guaranteed.

LANDS JOB THEN DISAPPEARS. Federal Government as Well as Family Interested in Strange Case of W. J. Connors, Jr., at Seattle.

(BY DIRECT WIRE TO THE TIMES.) SEATTLE (Wash.), Jan. 31.—(Exclusive Dispatch.) A nation-wide search is to be instituted to locate, if possible, W. J. Connors, Jr., who comes of a prominent Brooklyn family and who was assigned by United States Commissioner of Shipping James Knox to the Seattle office January 14, and who thereupon immediately disappeared from sight.

Relatives of the young man, as well as the Federal authorities, are making every effort to get in touch with him or to determine some reason for his unexplained and mysterious disappearance.

According to wires to the East, the young man was not dependent, and foul play is feared. Connors was to have been a deputy commissioner in the Seattle office.

MAYBE SHE'S SORRY NOW. Los Angeles Woman Spurns Husband Who Later Strikes It Rich. Now He Seeks Legal Separation.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, Jan. 31.—(Exclusive Dispatch.) "Now you are going back to Goldfield. If you get sick there, don't come home. I don't get to be bothered with you. If you should die, be buried there, for I don't want the expense of bringing you home."

On Christmas Day, four years ago, Frank B. Rose, a Nevada miner, who in those days, had nothing but prospects, but who now owns rich mines, visited his wife of thirty years, Rose, at Los Angeles. When he was leaving her, according to a complaint for divorce filed with the Superior

Organized Charity Condemns the Home of These Little Unfortunates.

**Report Hills.**  
**PUTS BAN ON WHITE HOME.**  
**Withdraws Its Support From Children's Institution.**  
**Charities Body Condemns Place as Undesirable.**  
**Woman in Charge Explains About Establishment.**

Backing the Lehighs' and Manufacturers' Association in its withdrawal of all support from the Belle White Home at Sixth and Mateo streets, the Associated Charities yesterday condemned that institution as superfluous and undesirable.

In a red-hot report by a committee appointed for a special investigation, the members of the Associated Charities were given many unsavory details of the management and tone of the Belle White Home, and the adoption of this report placed the organization squarely on record as opposed to the maintenance of private institutions of such a character.

The fight on the Belle White Home, which culminated yesterday in its wholesale denunciation, was commenced by the Associated Charities at the December meeting, when a representative of the Humane Society read before it a paper in which he described the conditions of the Belle White Home as squalid, if not filthy, declaring that while the children there seemed healthy and well fed, they were decidedly unclean and with an undesirable environment.

The Humane Society officer did not mention the Belle White Home by name, but the Associated Charities recognized the institution by the description given and decided to make a searching investigation at once. For this work a committee representing the health department, the Housing Commission, the Parent-Teacher Association, the Humane Society and the Associated Charities, was immediately organized. The committee from the Associated Charities made its report yesterday. It fell hard against the door of Miss White's private charity. While admitting that there is nothing to be said for the home, it declared that it was a place which an investigating committee reports squalid and undesirable. It finds children healthy and well fed, but not properly cared for otherwise.

**SHE FONDLES THE POODLE.**  
**Her Husband Objects, Gets "Plea of Her Mind," Slaps Her, and Now She Obtains a Divorce.**  
**When Mrs. Alma Kochensperger gave her husband, Howard Kochensperger, a "piece of her mind" because he said she ought to hug him instead of a poodle, he slapped her.**  
**This was one of the points of evidence in the trial of her suit for divorce in Judge Conroy's court yesterday. The ground of her suit was extreme cruelty. She got a decree.**  
**After he slapped her she packed her suit case, put it under one arm, the dog under the other, and went to her mother. The witness testified also that when she and her husband went in bathing he made a practice of splashing salt water in her eyes, so they would be red for days afterward.**  
**Kochensperger did not appear to explain why he objected to his wife fondling the dog.**

**JANUARY RECORDS BROKEN.**  
**More Permits Issued and Larger Valuation Shown Than in Any Preceding First Month of the Year.**  
**All building records for January were left far behind by the figures for the month which closed yesterday. In all, 820 permits, representing a valuation of \$2,104,875, were issued by the Chief Inspector of Buildings.**  
**The best previous January valuation, that of 1903, which boasted the really remarkable total of \$1,965,455, was eclipsed by \$139,420. January, 1910, which was also a big month, boasted 753 permits and \$1,796,481 valuation.**  
**The month just ended was notable for the great number of permits issued for new houses of one, one and one-half and two stories in height in all portions of the city. In fact, out of the aggregate for the month, 364 permits and \$727,574 valuation is represented by the activities of the home builder.**  
**The only building item of more than ordinary size was the permit for the eleven-story Chester block at the northeast corner of Fifth and Spring, which will cost \$1,000,000.**

**AFTER AN APPROPRIATION.**  
**At the instance of the Chamber of Commerce, H. Z. Osborne has gone to Sacramento in behalf of an appropriation of \$25,000 desired from the State for the Grand Army encampment, to be held in Los Angeles in 1912.**

**CHARGED WITH ROBBERY.**  
**On complaint of Peter Anderson, who lives at the Silver Star rooming-house, Detective Hawley yesterday afternoon arrested Alexander McDonald. He is charged by Anderson with taking \$35 from him.**

AN UNWRITTEN FREAKY TWIST.

**Vengeance of Alleged Wrong Proves Boomerang.**  
**Scion of Old Family Facing Murder Charge.**  
**Tale of Intrigue Asserted Cause of Tragedy.**

A strange boomerang of the unwritten law, in which vengeance for a real or fancied wrong turned upon the avenger to the destruction of an innocent third party, will be that brought out in the trial of W. L. Brent, whose preliminary examination will occur before Police Judge Williams this afternoon.

Brent, scion of the ancient family of Carroll-Brents of Baltimore, direct descendant of John Carroll, signer of the Declaration of Independence, son of Dr. William Brent of Charles county, Maryland, son-in-law of a Chicago millionaire and former president of the Merchants' Trust Company of this city, is accused of murder. Rudolph Schreiner, a Santa Monica carpenter, is dead by a bullet fired, presumably at James MacLean, a realty broker whose home he is accused of having broken up. Only the fact that Brent's revolver broke as he was pursuing MacLean, it is thought, saved the latter from a like fate.

The tragedy, which occurred last Wednesday evening, almost in front of Brent's home, No. 1066 West Jefferson street, came as the climax of months of espionage by MacLean upon an intrigue alleged to exist between his wife and Brent and which Mrs. MacLean is alleged to have confessed in full to her husband.

For about a year the two men had occupied a common office—that of the Crescent Realty Company—in the Security building. There was no partnership though, according to Brent, MacLean occasionally executed real estate commissions for him. The latter claims to have had implicit trust in Brent and to have at first suspected nothing improper in the relations of the latter and his wife, who called almost daily at the office.

It is asserted by the MacLean faction that, from the time Brent came to this city, seven years ago, he has had an evil reputation among women and that a large portion of his then good-sized fortune was dissipated in the gratification of questionable tastes. This is denied by Brent's friends, who say that, while he was a good spender and an easy-going man, he was not one of Lotharian tendencies.

**BIRTH OF SUSPICION.**  
According to the story which will probably be brought out on the witness stand, MacLean's suspicions of the affair date from the early part of October, at which time it appears that Mrs. MacLean was unable to satisfactorily explain her absence from home on one occasion. Corroborative evidence seems to have been shortly forthcoming. It is asserted that Brent admitted to friends the fact of the undue intimacy and that it came by that means to the ears of MacLean.

Early in November, according to the account, MacLean confronted his wife with the evidence and demanded the truth. She is asserted to have made a full confession to him at that time, a part of her statement having been made in writing. Then, seemingly broken alike in health and spirit, he went to the beach, where she has been until a few weeks ago.

One of those to whom MacLean confided the ugly story was Schreiner, the carpenter. The two appear to have been very intimate and it is asserted that the Santa Monica man undertook to help his friend avenge the alleged wrong done him.

On the night of the shooting they followed Brent from the Angelus bar to Jefferson and Orchard streets, near where Brent lives. On alighting from the car, MacLean approached Brent and demanded that he sign a joint statement which is asserted to be that made by his wife attesting the relations described.

Brent refused to sign. MacLean

**Modest and Candid.**  
**COUNT WOULD MARRY TO GO INTO BUSINESS.**

**ATTENTION, ladies!** Now is your opportunity to capture a mild, house-broken Count. He has boldly shied his castor into the matrimonial list grand asks for a helpmeet. He does not prescribe that she be beautiful or attractive. He does not say that she must be young, a widow or a spinster. He cares not whether she be fat or thin, short or tall, blonde or brunette. He is equally indifferent as to whether she be American or Hottentot.

But she must have money. That is the sole requirement. Count August Shaftefsky de Mukadel de Castellane Seymore of Denmark is for short and for some time has graced the show window of a big clothier and haberdasher on Broadway.

Seymore, who has discovered a longing for a helpmeet with ready cash, is now in Riverside, and has sent broadcast a sort of wall for attention, which has been addressed to a number of women in Southern California. Seymore sets forth his claims for attention in the matrimonial sweepstakes as follows, under the heading, "A Message to Garcia's Sister. An Advertisement not by Elbert Hubbard."

"Am a Dane by birth, 37 years of age, not married now, of academic

**A PREREQUISITE TO SUCCESS**  
is the ability to recognise and grasp opportunities. A careful reading of Times "Liners" will reveal many rare bargains in real estate, and other money-making propositions. Efficient help, desirable rooms, apartments, houses and situations also can be obtained through The Times "Liner" columns.

The superiority of The Times as a publicity medium is shown by the following figures:

For the week ending Sunday, January 29, The Times printed 2088 more "Liners" than the aggregate of all other Los Angeles newspapers combined, and 6579 more than its nearest local competitor.

The total number of "Liners" published by The Times for the seven days from January 23 to 29, inclusive, was 13,796. The prize of Five Dollars in Gold has been awarded to Mrs. C. A. Daniels, No. 643 West Thirty-seventh Place, city, whose estimate of 13,796 "Liners" was the first and only correct answer received in last week's contest.

**FIVE DOLLARS IN GOLD GIVEN AWAY**  
One week ago today The Times printed 1370 more "Liners." On the same day its nearest local competitor printed only 894 more "Liners."

On Tuesday, February 7, and on each Tuesday thereafter, a prize of Five Dollars in gold will be awarded to the person making the first nearest correct estimate of the total number of "Liner" advertisements published in The Times during the seven days from Monday, January 30, until Sunday, February 5, inclusive.

Estimates should not be made until after the publication of The Times on the last day of the week for which the contest is held, and they must be delivered before 10 a.m. the following Tuesday. The name of the prize winner for the preceding week will be published every Wednesday. This contest is not open to employees of the Times-Mirror Company, and this company's advertisements should not be counted.

All letters should be addressed to the Contest Editor, and each will be numbered in the order of its receipt in the office, 531-535 South Spring street.

SUMMARY OF THE DAY.

Because of lack of witnesses a unit message was released yesterday from a charge of throwing tanks in front of non-union messengers.

At an informal conference of the City Council held in the Mayor's office yesterday, the form of the straw ballot upon the aqueduct power question was determined. The power companies were given until Friday to submit a definite offer.

The Mayor's annual message to the City Council was read yesterday. It congratulated the members upon the economy of the administration and urged the necessity of harbor improvement.

Judge McCormick yesterday decided the city garbage case in favor of the proposition that the ordinance was constitutional and proper, and that the city had the right to regulate the whole question.

Woolwine gained fifty-four votes in the recent election, all of which were subject to the objections of Dist. Atty. Fredericks.

An accusation of disbarment was filed against William B. White, Jr., Los Angeles Bar Association yesterday, alleging an embezzlement on the part of White.

The City Council yesterday at an informal conference in Mayor Alexander's office determined on the form of the straw ballot to be taken in the March 4 charter election.

The simple proposition of whether the city is to distribute its power derived from the aqueduct or to lease it to the lighting companies. A vote is left open, however, so that the power companies may submit a definite offer of terms and conditions.

It was finally decided that the city is to distribute its power derived from the aqueduct or to lease it to the lighting companies. A vote is left open, however, so that the power companies may submit a definite offer of terms and conditions.

Mayor Alexander notified President John R. Miller of the Edison company immediately after the conference and urged that he would be obliged to hurry with his proposition.

Councilman Stewart and Washburn offered mild opposition to the holding of the straw ballot up to the final adoption of the plan. The council then voted unanimously to throw as much influence as possible on the power companies as possible.

Councilman Whiffen wanted to see "corporations" on the ballot instead of "companies," because, he said, the people would understand better what corporations are than companies. He decided that this might lead the Council open to a charge of prejudicing the statement of the case.

Councilman Andrews tried to amend the motion determining the form of the ballot so as to provide that the power companies be given a chance to set their offer upon it. The motion was defeated by a vote of 10 to 4.

The straw ballot, unless it is changed to include a definite proposal from the power companies will read as follows: "Shall the city of Los Angeles distribute the electricity to be generated by said city on the Los Angeles Aqueduct to the inhabitants of the city of Los Angeles?"

"Shall the city of Los Angeles lease the electricity to be generated by said city on the Los Angeles Aqueduct to the inhabitants of the city of Los Angeles?"

SEEMS FLAW IN  
AMENDMENT ONE.

His Hatchet Out.

Mayor Alexander's annual message was read to the City Council yesterday morning, and the various suggestions and recommendations referred to the committees and commissions.

The Mayor's first words are in commendation of the economy practiced by this administration, and the financial showing made during its first year.

The general fund provided by the budget, he says, will be more than sufficient to last through the fiscal year. The police force will have been increased by seventy-four more patrolmen than were provided for.

Drastic action is recommended to compel the street railway companies to pay and repair the portions of streets which, under their franchises, they are compelled to provide for.

He advocates declaring franchises forfeited if they fail to comply with the provisions in a reasonable time. He also suggests setting aside a fund with which the Board of Public Works may do the paving and then collect it from the railway companies.

SAYS PEOPLE MISLED.

One of the important parts of the message is devoted to a discussion of the effects of Senate Constitutional Amendment No. 1, adopted at the last general election, which plays havoc with the city's finances.

The Mayor declares: "The bond limit fixed by the State law for municipalities is 15 per cent. of the assessed value of the property within the city. The last assessment of this city makes this value \$23,000,000. There are now city bonds outstanding to the sum of \$24,517,717, leaving under the old tax measure, a little more than \$1,500,000 of additional bonded indebtedness which Los Angeles could incur."

Unfortunately, however, the people, misled by the immense amount of campaign literature, much of it unsigned and with nothing to show from whom it came, and overlooking the warning issued by the present city administration and by various city and county assessors throughout the State, voted for and carried the present city election Senate Constitutional Amendment No. 1.

The proposer of the amendment, however, is made whereby the people can call upon the corporations for help, in case the burden of local taxation becomes excessive. It is estimated that the present amendment will add a million dollars a year to the taxes of the people of this county.

As the worst feature, however, so far as the city is concerned, is the reduction of the bond limit. The assessed value of corporate property taken from the assessment rolls for city purposes by said amendment is about \$60,000,000, which, of course, reduces the bond limit by 15 per cent. of that sum, or \$9,000,000. So that, under the State law, as it now stands, the city of Los Angeles can authorize the issuance of but \$15,000,000 of bonds over and above the now outstanding and authorized. Of course, this condition will be partially relieved and the bond limit extended by the nature of the property values as the years go by.

"We have promised to spend for harbor improvements \$7,000,000 over and above the \$2,000,000 of bonds already voted for that purpose. We are in need of a municipally-owned and operated railway to the harbor. Some of the franchises of the street railways in the city will expire shortly, and as soon as a sufficient number have expired the city may wish to take over and operate these railway lines. It will take four or five millions of dollars to build or buy a distributing system for the aqueduct electricity when the franchises of the street railways expire."

"We are much in need of a new City Hall; and, while the sale of the old site may bring the greater part of the money needed for the erection of the kind of a City Hall we should have, yet we may need to issue bonds for that purpose."

"It has been suggested that there may be some flaws in the passage of Amendment No. 1, and I believe it would be wise for your honorable body to consider the City Attorney's statement as to whether or not it is possible to defeat this amendment in the courts; and also, perhaps, to consider whether or not the property owned by the city is of such value as to warrant the purpose of fixing the amount of bonds which the city can issue. The city has more than forty million dollars of bonds already outstanding. All of this, or will be, income-producing property. This income-producing property undoubtedly makes the bonds of the city much more desirable to the investor, and it should be

WITNESS LACK  
AIDS UNIONITE.

PROSECUTION BEING UNABLE TO FIND MORE THAN ONE WITNESS WHO ACTUALLY SAW TACKS STREWN IN FRONT OF BICYCLES, COURT DISMISSES COMPLAINT FOR LACK OF EVIDENCE.

Because the prosecution was unable to secure more than one witness who could testify he had seen the act committed, Judge Ross yesterday released Harry Murray, a unionite messenger charged with throwing tacks in the street to puncture the tires of the independent messengers.

The court declared the testimony would have to be corroborated. Murray is secretary of the organization of independent messengers.

Many of the messengers found the tires of their bicycles studded with small tacks. They started an investigation, and found a young man who declared he had seen Murray throw the tacks along the street where the bicycles were generally parked.

Other witnesses were found who saw the tacks strewn in the street.

In dismissing the case, Police Judge Ross told Assistant Prosecutor Nimmo to file no complaint when another witness is found.

Another Chance.

George Wilson, an habitual vagrant, was released from the county jail on a suspended sentence by Police Judge Ross yesterday. He was charged by officers with begging. Wilson admitted it. Judge Ross said he would rather see Wilson leave the city than have the city support him for six months.

Luna Discharged.

Anthony Luna, charged with exhibiting a deadly weapon, was discharged by Police Judge Chambers yesterday on the ground that he had not threatened anyone. Luna was arrested in a saloon when he became belligerent in celebration of his appointment as a deputy constable.

Police Court Briefs.

A. Garcia, charged with stealing two razors, was sentenced to sixty days in jail by Police Judge Chambers yesterday. Room was found in the City Jail yesterday for about twenty vagrants. Most of the drunks were released.

Held for Trial.

H. A. McNabb, charged by H. A. Sherwin with being one of two men who attempted to hold him up on Pacific street last Thursday night, was held for trial under \$3000 bail by Police Judge Chambers, yesterday afternoon.

Dollars and Cents.

UTILITY BODIES  
FILE REPORTS.

ANNUAL STATEMENTS GO TO THE CITY CLERK.

Gas, Telephone and Electric Lighting and Power Concerns Submit Figures on Year's Business—Edison Company Is Taking an Inventory and Needs More Time.

Yesterday was the day for the filing of annual statements with the City Clerk by the public utility corporations of Los Angeles. They all came in except the Edison Company, which asked for an extension of thirty days' time at the session of the Council in the afternoon of this day. The City Attorney stated that they were spending \$50,000 in making a complete inventory of their property and needed additional time. The request was granted. The reports filed yesterday give the following statements of conditions on December 31, 1910:

Los Angeles Gas and Electric Corporation: Total assets, \$10,353,176.78; franchise, \$905,000; manufacturing account, gas sold by meter, \$2,254,257.69; total operating expenses, \$7,701,662.96; physical report: cubic feet of gas made, 1,348,537,000. Electrical department: Electric light and power sold, \$1,078,942.10; expenditures, \$78,083.78. Total value of real property, including franchise, \$4,063,674.48.

Pacific Telephone and Telegraph Company: Revenue from exchange and toll service, \$1,115,357.15; expenses of operation, \$1,172,921.07; maintenance, \$22,392.65; taxes, \$74,263.14. Total, \$1,125,447.59. Net revenue, \$23,090.74. Value of plant, \$5,857,534.97.

Home Telephone and Telegraph Company: Received for rental of telephone service, \$1,044,553.67; expenses of operation, \$814,935.72; expenditures for construction and property, \$251,555.37; valuation of property, \$5,764,545.59; franchise and gas sold, \$1,106,524.47. Southern California Gas Company: Assets, \$5,068,707.31; gas sold in city, \$247,296.92; expenses within city, \$313,554.61; cubic feet of gas made, 216,097; consumers, 8828.

Pacific Light and Power Company: Commercial lighting earnings, \$906,143.52; municipal lighting earnings, \$141,064.32; commercial power, \$32,635.62. Total, \$1,133,900.53. Operating expenses, \$609,862.92. Total, \$524,037.61. Total, \$1,133,900.53. Property valuation, including franchise assessed at \$2,257,940. Total, \$5,291,001.77.

PROBATE MATTERS.

The petition for the probate of the will of George A. Brunner, who died in this city, October 14, was filed in the Probate Court yesterday. The estate is valued at \$10,000. It all goes to relatives.

A petition was filed for the probate of the will of Franklin C. Holmes, who died in this city, January 23, 1910. The property is valued at \$10,000. It all goes to his wife, Mary Holmes. The testator died in New Orleans.

A petition for the probate of the will of

## LATEST ORDER IN SOME DOUBT.

Nothing to Show Date of Going Into Effect.

President Departs From His Former Custom.

General News of Interest From Oil Fields.

(Special Correspondence of The Times.)

COALINGA, Jan. 20.—A question has already arisen over the validity of the withdrawal order of President Taft.

On December 28, taking about 20,000 acres out of the Lost Hills and Coalinga districts, as there was nothing in the test of the withdrawal to show at what exact date it was to go into effect. The order is dated on December 28 but it was not received and placed on file in the Visalia Land Office until January 10. The question now arises as to whether the filing made after December 28 or prior to January 10 will be valid under the test of the withdrawal order. Under the old rulings of the Land Office and before the President was empowered to make arbitrary withdrawals, it was the practice to make the withdrawals operative upon the date of their being placed on file at the General Land Office. The attorneys do not pretend to state whether this ruling holds under the new practice or not and they probably cannot know positively until a case is taken before the interior department on this point.

A telegram was received in this city yesterday from Tom Hayes, the oil expert and cement contractor, who recently connected himself with a large English corporation owning oil properties in the Egyptian Land. The telegram was dated New York City and was to the effect that Hayes would start West immediately. The telegram left Coalinga September 5, and since then has been acting as oil expert in the fields of the Far East. The dispatch did not state whether or not Hayes had severed his connections with the corporation.

Well No. 1 of the Creme Petroleum section 20, 21-15 which came in a week ago, is giving a steady production of 400 barrels. Well No. 2 down 2250 feet in 18-inch casing, is string of 10-inch in 18-inch casing, the longest string of friction casing in the field. No. 2 was drilled to a depth of 1600 feet with a rotary when it was changed over to a standard rig and the 10-inch put in. The string will be cemented off at about 2300 feet and the well finished up at about 2500 feet. Superintendent Miller of the Creme stated that he hoped to have the well on the pump by the first of March and as soon as it is brought in operations will be commenced on well No. 3. It is the intention of the company to drill eight wells on the property, which consists of twenty-two acres.

A special meeting of the stockholders of the Boychester Oil Company was held last week, it was unanimously agreed to go ahead with drilling. The hole which is now over 2000 feet in is in excellent condition and is expected that another sand will be struck within 200 feet from where the drill is now tamping. In gaining the greatest depth the drill encountered no mud, but the water broke in on two cases.

After having completed well No. 1, which is now producing between 500 and 600 barrels per day, and drilling well No. 2 to a depth of 2250 feet in 18-inch casing, well No. 3 of the United Development Company was spudded in yesterday. The wells are located on section 19 of Southern Pacific holdings.

The Coalinga Hub Oil Company on section 22, 21-15 has its 3 1/2 inch casing in the sand believed to be encountered a few weeks ago by the Boychester Oil Company. The well is 200 feet deep and considerable interest is being taken in the balling-out of the well. The drillers intend to test out the sand thoroughly and expect to bring in a good producer of sand and gravel oil.

Removable oil indications are reported from the Castle well on section 4, which is now down 3500 feet in 8 1/2 inch casing. It is believed that the sand will be struck within the next few feet.

Well No. 2 of the Lucile Oil Company on section "A" is making an average production of about 600 barrels per day since it was cleaned out a few days ago.

A dark brown shale has been encountered in the Coalinga Midland field on section 19, 20-15 and a great deal of gas is evident. The well is 1100 feet deep and the management feels confident of soon drilling into a productive sand.

The Aserra well which was cemented off some time ago for the third time has been tested out and found to be thoroughly dry. The drill has been put through the cement, the 8-inch casing is being put in and the superintendent expects to encounter a sand within a few feet.

MORE LOST HILLS OIL.

CONSOLIDATED IN THE SAND.

J. M. Kent, a Bakersfield operator, who has just returned from the Lost Hills reports that the Lost Hills Consolidated Oil Company has gone into the sand on section 20, 20-21 and is preparing to bring in a well.

The well is down 700 feet and the sand bears out the expectations of the owners. The company is a closed corporation with but two stockholders. J. E. Dorsey is president, N. E. Green, secretary and J. W. Kelly, treasurer.

Back From Washington.

Parker Barrett, one of the owners of the Lafayette ground, has returned from Washington where he had some business connected with the oil industry of California.

Making Rapid Progress.

The Guaranty Oil Company is going fast in the gasier sands in the quarter of section 22, 20-24. The superior progress is reported that the drill in well No. 2, which is down 1000 feet, is making thirty feet a day, and should encounter the sand within forty days. The same as the wells of its neighbors, the American Oil and the Standard Monarch. The well is constructing a large tank to store the gas, and it is expected to go to the part of the midway field.

Like Formation.

The Guaranty Oil Company, operating in the new Vallecitos district, continues to make good progress and is now down 500 feet in well No. 1. A peculiar blue shale, which is believed to be the same as the shale of the midway field, was encountered in the well.

Wanted Photographer.

Finest daylight studio in city (Just finished), north of Chamber of Commerce, 212 E. Spring street.

Architects Attention.

Finest daylight office for 10 to 1500 feet, just north of Chamber of Commerce, 212 E. Spring street.

The United States survey, to be about 100 feet thick. Both Anderson and his former chief, Ralph Arnold, agree that this part of the Vallecitos is to produce large quantities of high gravity oil, and from wells of moderate depth. Several oil companies that have recently entered the field are retarded in development work by the rainy season.

Pierce Upholds Himself.

A great ado is being made in certain quarters because Frank Pierce, first Assistant Secretary of the Interior, the author of the famous Yard decision, has sustained himself in the appeal of the Bakersfield Fuel and Oil Company. In sending out copies of his sustaining decision Mr. Pierce says that legislation of a remedial character recommended by his department will probably be passed by Congress.

Conditions at Kramer.

Word comes from San Bernardino that fifty-five oil locations in the vicinity of Kramer was the record for one day recently. It is said that since the well at Kramer has been cemented off and the water taken out there are better indications of oil than ever before.

Showing of Light Oil.

The Santa Maria Midway Oil Company, operating on the Tepequet Ranch, is expected to get a lighter oil than that produced by its neighbors in Cat Canyon, and at considerable less depth. As proof of this, the adjoining Princess well, down 1132 feet, has already some gas pressure, and a little light oil is coming up in the boiler. There are many oil seeps and asphalt deposits in this part of the Santa Maria field, and the geologists expect it to become a big producer.

Trapped.

RUNS JUST RIGHT FOR OFFICER.

COOLIE HEADS STRAIGHT FOR FEDERAL BUILDING.

The Chinese Is Easily Captured at Entrance; After Leading Immigration Inspector Stern Chase Along North Main Street—Is Ordered Deported by United States.

Recognized as a contraband because of his foreign complexion, Ah Mow, who is as big as four Chinese of the average size, made a wild dash north on Main street yesterday in an effort to escape from an inspector. He ran right into the Federal building, where cases, such as his are dealt with.

Ah was serenely sauntering along the street when he met Inspector Miller. His colossal build would have commanded the attention of the officer, even if he had not been on the lookout for strange coolies. At a glance the inspector satisfied himself that the oriental had no right to be within the borders of the United States. The yellow of his cheeks was too deep to have been tanned by the elements of Southern California.

"Officer, see," explained the inspector, as he took hold of the Chinese.

Ah saw, but only for a moment. He slid out of the officer's grasp as easily as an eel. He surprised Miller by the burst of speed he showed.

He ran after Ah Mow, but says he did not do his best to catch him. He just kept within striking distance, as the oriental was dashing directly toward the Federal building. Miller was quick to see the advantage of having him transported there on his own "power." It would have taken a dray with a derrick on it to get the coolie there if he had resisted.

Ah Mow reached the entrance and started by Miller made a tackle which would have done credit to a gridiron hero. The celestial went down in a heap and bounced on the pavement like solid rubber. When he regained his feet, he saw the open doors of the Federal building and sought refuge there.

He was received with open arms by the officials and was taken before United States Commissioner Van Dyke. The official entered an order for his deportation.

WILL STICK TO OLD FORM.

Supreme Court Authorizes Issuance of Criminal Complaints by District Attorney.

There will be no changes in the method of instituting criminal proceedings in this county, as was indicated in Justice Sumnerfield's court when the case of Nichol Chuliah was called for a hearing Monday.

At that time, the defendant's attorney moved to have the charge dismissed on the ground that the action had been instituted in violation of the law which provides that a magistrate must take the depositions of witnesses before he issues a warrant.

Recent decisions of the District Court of Appeals were cited to bear out this contention and on a hasty examination seemed to the magistrate to be in point. Deputy District Attorney Shannon asked for time in which to look up the question. Yesterday he presented to the magistrate's decisions of the Supreme Court to the effect that the practice now in vogue is proper.

It has been customary for a deputy district attorney to draw a complaint and have the chief witness swear to it before a magistrate. The highest court in the State has held that such oath is a sufficient deposition.

When the case was put up to the magistrate in this light, yesterday, he decided that the "old" practice is the proper one and ordered that the examination of Chuliah should continue.

SETTLER WINS LAND FIGHT.

Contest Instituted Three Years Ago Affecting Holding in Imperial Valley Decided by Assistant Commissioner.

The effort of Ray C. Griswold to oust John Zimmerman from a claim in the Imperial Valley, which caused probably the most serious internal dissension in the local land office that was ever stirred up, was brought to a close yesterday, three years after the contest was instituted.

Gen. Frank C. Fessenden, who was then the Register and Receiver of the Imperial Valley, and Receiver Robinson, rendered adverse opinions in the matter, leaving the contest in no better condition when it left the office than when it was begun. S. V. Proudfit, assistant commissioner of the General Land Office, yesterday sustained the findings of Robinson, which were to the effect that the contest should be dismissed.

The case illustrates the policy of the government to deal kindly with all persons who make honest endeavors to make barren soil productive.

Develops Plan Whereby Women inmates May Be Taught Arts Useful to Them as Bread-Winners Later on—Curse of Jail to Be Turned Into a Blessing.

To get a portion of the proposed municipal farm set aside for the women where they may be taught to sew and cook and where they can get plenty of fresh air, is the aim of Mrs. Aletha Gilbert, chief police matron of the City Jail. In return for an acre of land and a few hundred dollars worth of equipment, Mrs. Gilbert stated yesterday afternoon that the woman's department would be able to do all the cooking and sewing needed in the jail and would, in addition, do all the city's laundry work. Mrs. Gilbert has been developing a plan for a woman's municipal farm for five years. She has been chief matron for nine years and was with her mother when she was matron in the jail so that her experience is valuable. She has made a careful study of the methods of handling women prisoners, and the farm idea is the outcome.

## Baby's Voice

Every woman's heart thrills at the cooing and prattling of a baby, and motherhood is her highest and purest joy. Yet the suffering incident to this great consummation of her life's desire, robs the anticipation of some of its sweetness. Most of this can be avoided by the use of Mother's Friend. This great remedy prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. Mother's Friend assists nature in gradually expanding all tissues, muscles and tendons, strengthening the ligaments, keeps the breasts in good condition, and brings the woman to the crisis in healthful physical condition. The regular use of Mother's Friend lessens the pain when baby comes, and assures a quick and natural recovery for the mother. For sale at drug stores. Write for free book for expectant mothers.

## Events in Local Society

**MR. AND MRS. ELBRIDGE DEXTER RAND**, who were married July 7, in Portugal, arrived home last week, much to the delight of their many friends. Mrs. Rand will be cordially remembered as Miss Lucille Gage, the charming daughter of Minister and Mrs. Henry T. Gage. Mr. Rand is the eldest son of Mrs. Charles Wellington Rand of "Whitcomb" boulevard, who with her talented young daughter, is touring Europe.

The honeymoon trip has been a pleasant one. It included a tour through France, Switzerland, Italy and other interesting places. At present Mr. and Mrs. Rand are on the Henry T. Gage ranch at Downey, preparing for a month's hunting trip in Mexico. The young bride and groom will enjoy a portion of the journey in a motor car. Upon their return to this city they will occupy apartments until the summer when they contemplate again visiting Europe.

**Mrs. Hubert, Hostess.**

Mrs. P. G. Hubert of Hobart boulevard presided at a luncheon of twelve covers yesterday. Violets adorned the table. This is the first of a series to

Miss Grace Elizabeth Shoemaker, daughter of Mrs. W. E. Jones of Pomona, which will take place at the beautiful country home February 22. The groom-to-be is Charles H. Burnett. Miss Shoemaker is a daughter of the late Dr. Shoemaker of this city, thus making the news of widespread interest. Mr. Burnett is manager of the Los Angeles and Redondo Railway.

**Dinner Party.**  
Mrs. Jacob Yell of New York, who is domiciled at the Lankershim, will entertain Sunday week with a dinner party. Her guests will be Mr. and Mrs. L. M. Woodward, Mr. and Mrs. P. C. Finkle, Mr. and Mrs. O. H. Keffer, Mr. and Mrs. Joseph Joss and Harry Wood. The table will be decorated with pink carnations and corsage bouquets of violets.

**Miss Potter, Honored.**  
Complimentary to Miss Katherine Potter, a popular bride-to-be, Miss Gertrude Sherwood of No. 1857 Lovelace avenue, entertained with a luncheon and bridge party yesterday. Red and green were the prevailing color tones. The invited guests were Mrs. Sidney I. Darwin, Mr. H. G. Bayless, Mrs. J. C. Kubach, Mr. and Mrs. J. D. Young, Mr. and Mrs. Bernard Schuler, Mr. H. C. Hen-

J. Hagan. They will sail on the S.S. Mauretania, June 14, due in London June 19, in time to view the coronation of King George V. June 22. They will then make an extended tour through Europe, France, Germany, England, Austria, etc.

## PERSONAL.

**Dr. J. C. Bynum and wife** arrived at the Westminster yesterday from San Francisco.

J. F. Eckert, who has oil properties near Bakersfield, is a guest at the Hollenbeck.

R. F. McDonald, a San Francisco barrister, is one of the late arrivals at the Lankershim.

E. J. Jefferson, connected with one of the many Pittsburgh iron industries, is staying at the Angelus.

Dr. and Mrs. W. P. Austin are visiting friends at the Lankershim. They are from Salinas.

D. E. Ellis, Jr., and his wife are at the Alexandria. Bliss is manager of the allied railroad and hotel interests of Lake Tahoe.

J. G. Montgomery and wife are guests at the Hollenbeck. Montgomery is a cattle producer of Phoenix.

John C. Ran, an attorney of Washington, with his wife, is a late arrival at the Hayward.

Collin MacDonald, one of the pioneers in the Taft oil fields, is staying at the Van Nuys.

Mr. and Mrs. Arthur W. Johnson are occupying a suite at the Angelus.

Johnson is a New York broker.

Mr. and Mrs. E. J. Candlish are occupying apartments at the Alexandria. Candlish is an extensive land operator of Saskatoon, Saskatchewan.

J. M. Butler, a mining engineer, arrived at the Hayward yesterday from Tonopah.

H. Player, who has land and mining interests at Ensenada, is registered at the Van Nuys.

Alfred Jordan, chess and checker champion of England, arrived at the Hollenbeck yesterday afternoon from London. He is the guest of a local club which visited these two games.

R. B. James and wife arrived at the Westminster from Baker, Or., yesterday. They are new witnesses for the Baldwin side in the present Turnbull will case.

W. Coggeshall, a milling man of Europe, is passing a few days at the Hollenbeck.

Mr. and Mrs. J. Cameron of Vancouver are staying at the Hayward. Cameron is an attorney.

J. Laventhal of the firm of Laventhal Bros., San Francisco, is making the Van Nuys his home for a few days.

W. E. Day, a manufacturing jeweler of San Francisco, is a recent arrival at the Hollenbeck.

J. Campbell Hesley, polo player and clubman of New York, arrived at the Alexandria yesterday from his ranch at Hermosillo. He was accompanied by W. L. Wilcox.

A party of Pittsburgh tourists at the Hayward is made up of Mr. and Mrs. James B. Clark and Mr. and Mrs. Richard A. Rowland.

A party of San Francisco oil operators arrived at the Van Nuys yesterday. In the party are John W. Sward, E. P. Feis and B. D. Seligman.

C. J. McCarthy is staying at the Hollenbeck. He is a manufacturer of undertakers' supplies and has a factory at Des Moines.

Dr. and Mrs. R. W. Miller arrived at the Westminster yesterday. They are on their way home to Santa Barbara after a second trip around the world.

Mr. and Mrs. Fred Walther and Mr. and Mrs. H. Scott are Chicago guests at the Angelus. Walther is a commission merchant.

E. S. Knowlton and his son are Vancouver arrivals at the Hollenbeck. Knowlton is a wholesale druggist.

G. A. Ottomeyer is staying at the Westminster. He is here to remain after a visit two years ago, when he was favorably impressed. Ottomeyer is a general merchant of New Ulm, Minn., and is accompanied by F. H. Cook.

C. W. Scott is a guest at the Hollenbeck. He is superintendent of the Black Eagle smelter at Great Falls, Mont., and is here visiting friends.

## AFTER QUACK CHINK DOCTORS.

Complaints issued by District Attorney at the Instance of State Medical Board Now Making Crusade.

On information furnished by C. A. Taggart, a detective in the employ of the State Medical Board, complaints were issued yesterday afternoon against local Chinese doctors, charging them with practicing medicine without licenses. The complaints were filed in Police Judge Chamber's court by Deputy District Attorney Keetch.

The names of the persons notified yesterday noon that complaints had been issued against them are: Lum Wing Yen, Chung Hong, M. J. Yen, Quan Tong, T. Leung, L. S. Quan, H. P. Chan, C. S. Chan, C. S. Hastings, Sarah J. Tedford and Grace Morton. There will be several more complaints issued within a few days, as the evidence has already been secured.

The filing of the complaints yesterday is the result of the crusade recently started by the Medical Board to stop the practice of medicine by unlicensed persons.

The offense is a misdemeanor under the State law, punishable by a fine of \$50 or fifty days in jail.

**Mrs. Elbridge Dexter Rand**, formerly Miss Lucille Gage, who has just returned from an extended honeymoon tour.

to be given by Mrs. Hubert, the next to take place in a fortnight.

**Delightful News.**

Mrs. E. Levy of Oxnard announces an engagement of her daughter, Miss Helen, to Ben N. Norton, a business man of San Francisco. Miss Levy is well known in this city where she was graduated from the Girls' Collegiate School. She is charming and pretty and her many friends here will be both surprised and delighted. She has just returned from an extended European trip and en route to her home spent some time in Los Angeles with her uncle and aunt, Mr. and Mrs. E. Gerson of No. 718 West Washington street.

**Mrs. Garner, Hostess.**

Mrs. John L. Garner of No. 745 West Adams street, was hostess yesterday at a luncheon and bridge party, with which she entertained in compliment to Mrs. James Rae Arnell of Denver.

**Miss Helm to Entertain.**

Miss Elizabeth Helm will entertain with an enjoyable affair Thursday at her home at 1015 North Main street, with Mrs. Evelyn Welf of New York.

**From Indiana.**

Mr. and Mrs. A. W. Heit and daughter of Fort Wayne, Ind., are visiting Mr. Heit's sister, Mrs. W. E. Hues of No. 34 North Mathews street.

**At Ebell.**

Mrs. Frank Henry Gordon, Mrs. Louis Westcott Myers and Mrs. Newton Carr Potter entertained about 500 friends at the Ebell Clubhouse yesterday afternoon. Quantities of American beauties were used to enliven the rooms. The guests were received by the hostess and Mrs. George Culver, Mrs. Elmer Pascoe, Mrs. C. Brown, Mrs. Sumpter F. Zomboro, Mrs. Willis Booth, Mrs. Frederick T. Bicknell, Mrs. Lucius Chase, Mrs. Thomas Pascoe, Mrs. Edward F. Bonardus, Mrs. Malcolm C. Mason, Mrs. W. W. Neuer, Mrs. J. W. Traworth, Mrs. Fred L. Baker, Mrs. E. R. Farnese, Mrs. F. B. Sutton, Mrs. H. D. Ryus, Mrs. John W. Kemp, Mrs. Richard Burns, Mrs. H. K. Williamson, Mrs. R. B. Williamson, Mrs. J. C. Bannister, Mrs. Richard Mercer, Mrs. Oscar Mueller and Mrs. Joseph Call. Music was furnished by an orchestra.

**Return From Europe.**

Mrs. E. A. Barr and daughters, the Misses Alice and Pauline, have returned from Europe and are domiciled at Hotel Hayward.

**Charming Visitor.**

Miss Ruth Laughlin of Santa Fe, N. M., is visiting Mr. and Mrs. J. Bond Francisco. On Thursday, February 9, Miss Laughlin will be the honoree at a luncheon given by Mrs. Francisco. Members of the younger set will be the guests.

## St. Valentine Party Invitations

You will want printing that is different—in fact that can hardly be told from engraving—and at much less cost.

Get Your Order in Now

Our new printing plant is equipped with all the new type faces, and if some dainty illustration is necessary, our Art Department can furnish it.

Prices Lowest for Quality

Just a fair percentage for profit is all we ask, and our press work is absolutely the best.

## The Entire Lowman Stock

Inventory has revealed the fact that our stocks are away too heavy. Too much clothing—too many hats—shirts—gloves. We've got to cut down immediately. Can't let profits—nor even cost stand in our way. If underselling can get us the results we want—we'll get them.

### All Our Suits And Overcoats HALF PRICE

Not just a few picked over lines—but absolutely every suit and overcoat in our entire stock—including even our blacks and blues. No Los Angeles store can sell you better clothing, for we represent the best makers in America. And—certain it is—that no Los Angeles store can offer such values. We've got to turn our stock double quick. Prices talk. Don't be bamboozled by flowery arguments. Compare notes.

# ENGINEER FACES MIGHTY TASK.

## Turning Colorado River Back From its Channel.

### Thirty-five Miles of Levee to Be Constructed.

#### Salt Lake Rebuilds Trackage Through Meadow Valley.

"Rapid progress is being made in the preparatory work of closing the Colorado River," said H. V. Platt, general superintendent of the Southern Pacific Railroad, on a tour of inspection last week. Platt made a side trip to inspect the government work on the Colorado River.

With the permission of the Mexican government the United States government is undertaking to divert the Colorado River from its present flow through the Colorado River channel to the original channel of the Colorado River.

The government is undertaking to close the Colorado River in Mexico at the point where it leaves the old channel and flows west in the old Colorado River channel, he stated. "The work includes the building of a dam across the Colorado River, forcing the river through the old channel, and also the construction of a long levee flanking the old river channel. This work will cost in the neighborhood of a million dollars."

Platt said that the government is undertaking to close the Colorado River in Mexico at the point where it leaves the old channel and flows west in the old Colorado River channel, he stated. "The work includes the building of a dam across the Colorado River, forcing the river through the old channel, and also the construction of a long levee flanking the old river channel. This work will cost in the neighborhood of a million dollars."

## February Clearance Sale

### At All Three Baker Stores Commences Today

#### It's a Great Bona Fide Bargain Event of Tremendous Importance Inaugurated to Accomplish a Fixed Purpose in a Decisive Manner in a Definite Period of Time.

A Baker sale is a sale not only in name, but in deed; not in form but in performance. A sale not in the advertisement alone, but a positive increase in values by means of genuine reductions. You'll find that the sale we are now starting is phenomenal in every way; not only in the money-saving opportunities afforded, but in the value-gain we offer you as well. We are known as "close-margin" shoe store; we sell a lot of high-priced shoes, to be sure, and the people who get them get big value for their money. We're offering that value at substantial reductions from regular prices. Just as surely and unequivocally as Baker's regular values are greater than elsewhere, so Baker's sale values are greater than in any other shoe sale in Los Angeles. If you are looking for shoe bargains, come to Baker's.

# BIG INCREASE IN EARNINGS.

## Union Oil Company Has Best Year of Its Life.

### Departmental Reports Read to Stockholders.

#### Year's Business Nearly Thirteen Millions.

In the office of the Union Oil Company of California, in the Security Building, yesterday afternoon there was an informal meeting of the stockholders to receive the reports of the department managers which were submitted to the annual meeting held at San Francisco Bay, on January 10.

The matter of paramount importance reported by the meeting was the fact that the year 1910 was the biggest and most successful in the history of the Union Oil Company. The volume of business was greater than in any previous year, the net earnings were the largest, the dividend rate was increased, and the value of the company's stock was enhanced.

Lyman Stewart, president of the Union Oil Company, presided over the meeting and the departmental reports were received by the stockholders with enthusiasm. The reports showed a gross earnings of \$12,500,000, a net earnings of \$1,500,000, and a dividend of \$1.50 per share.

Chief of Police Arranges Force So  
Bigger Number Will Be On Duty  
When Criminals Are Out.

Believing that the city is in greater  
need of police protection at night than  
in daytime, Chief Sebastian yesterday  
made an order, effective at once, to  
double the number of patrolmen on duty at  
all times. This step is taken as a  
precaution against the possibility of  
the different police stations waiting to  
be sent out on special calls.

Chief Sebastian declares that a  
larger number of men is sufficient for  
this work than the special detail  
equipped. After selecting the older and  
more experienced men to remain on the  
squad, the others were ordered out to  
beats.

The former custom of changing offi-  
cers from one beat to another is to be  
done away with and hereafter an  
officer will remain on the same beat  
at all times. This step is taken as a  
precaution against the possibility of  
the different police stations waiting to  
be sent out on special calls.

Several members of the police  
mounted squad were given an exami-  
nation yesterday to try the ropes  
which were made a part of their equip-  
ment when they first went on duty.

The Los Angeles Ostrich Farm re-  
ported the escape of several of the  
birds during the storm Monday night,  
and the police turned out to assist in  
their capture. The task proved to  
be an easy one, when employees of  
the farm located the ostriches and  
joined the police in surrounding them.

INVESTIGATE DEATH.

Louis Langstrom, 44 years old, died  
at the California Hospital yesterday  
afternoon. The coroner was notified  
to determine the cause of death.  
Langstrom was found in a house in  
the year of No. 2144 East Thirty-  
third street, suffering from an acute

Value of Advertising.

Approves of washouts, T. B. McGov-  
ern, traffic manager of the Pacific Na-  
vigation Company, operating the big  
steamships Yale and Harvard, received  
an object lesson in the value of ad-  
vertising yesterday.

"I put a big display ad in the Times  
calling attention to the fact that there  
were no washouts on our line," said  
McGovern. "I guess everybody in town  
read the ad. I have been called up  
on the phone by a good many persons,  
besides nearly everyone I met. I had  
something to say about it. Some of the  
officials of the railroad lines, however,  
seemed to lack appreciation of my at-  
tempt at humor, so I am qualifying my  
statement to the effect that while we  
have plenty of water on our line, we  
are not having any delay because  
of washouts."

"High Jinks" Saturday.

The invitation for the "high jinks"  
of the Los Angeles Traffic Association  
in an unusual form. Printed in the  
form and style of the conventional rate  
card issued by the tariff department  
of a railroad, it reads: "Los Angeles  
Traffic Association, tariff department,  
Local and Joint Programme No. 1."  
The card is a masterpiece of humor,  
and is in charge of the following:  
Ed. B. Blair, Big Casino; C. E.  
Cline, Little Casino; B. L. Dowell, chief  
section foreman; George Duncan, first  
assistant section foreman; T. S. Brown,  
section foreman; J. E. Neudham, track-  
walker; and J. J. Naylor, walking

### BIG INCREASE IN EARNINGS.

Union Oil Company Has Best  
Year of Its Life.

Departmental Reports Read  
to Stockholders.

Year's Business Nearly Thir-  
teen Millions.

In the offices of the Union Oil Com-  
pany of California, in the Security  
Building, yesterday afternoon, there  
was an informal meeting of the stock-  
holders to receive the reports of the  
department managers which were sub-  
mitted to the annual meeting held at  
Olympia, on San Francisco Bay, on Jan-  
uary 13.

The matter of paramount importance  
discussed by the meeting was the fact  
that the year 1910 was the biggest and  
best the Union Oil Company has ever  
known. The volume of business  
done was greater than in any previous year,  
and the net earnings were the largest.  
The dividend rate was increased, and  
the valuable holdings of the company  
were enlarged.

Lyman Stewart, president of the Un-  
ion, presided over the meeting and the  
departmental reports were received by  
the stockholders with enthusiasm. The  
report showed gross earnings of  
\$13,523,673.35. The cost of  
producing the company's property was  
\$1,000,000. The net earnings were  
\$12,523,673.35. The monthly average  
earnings were \$1,043,644.45. The to-  
tal earnings for the year were \$12,523,673.35.  
The average per share was \$1.043,644.45.  
The 1910 dividends paid (11)  
amounted to \$1,750,000.00; surplus, less  
\$1,000,000.00; total dividends paid  
\$2,750,000.00. The present rate of dividends  
is 11 per cent. on par value of out-  
standing stock, \$1.00 per share; increase  
over 1909, \$25,000.00.

The following expenses of the company  
were shown: Rental of prop-  
erty, \$1,000,000.00; salaries, \$1,000,000.00;  
depreciation, \$1,000,000.00; interest, \$1,000,000.00;  
taxes, \$1,000,000.00; and other expenses, \$1,000,000.00.

COMPARATIVE STATEMENT.  
The comparative statement for nine  
years, from 1902 to 1910 inclusive, shows  
an increase in per cent. of net earnings  
amounting to 57 per cent. in 1910; net  
earnings, from \$1,000,000.00 in 1902 to  
\$12,523,673.35 in 1910. The increase in  
the company's holdings of oil and gas prop-  
erty, including a special div-  
idend of \$1.00 per share, of \$15-  
cents, is shown as follows: The present rate of dividends  
is 11 per cent. on par value of out-  
standing stock, \$1.00 per share; increase  
over 1909, \$25,000.00.

The report of the Union's land de-  
partment showed that the company  
owns or controls valuable oil  
land in the following counties:  
Alameda, Contra Costa, San Benito,  
San Diego, Kings, Santa Barbara,  
San Luis Obispo, Kern, Mono,  
and Contra Costa. The holdings  
are summarized as follows: In fee, 26,  
000 acres; mineral rights in fee, 130,  
000 acres; leases, 31,700 acres; min-  
eral rights, 11,461.65 acres; total  
holdings, 229,944.65 acres.

OF THE BIG WELLS.  
Lyman Stewart, president of the Union  
Oil Company, in his report to the stock-  
holders, said: "During the latter part of 1909 your com-  
pany acquired the Regal property in  
the Lakeview district, and a controlling  
interest in the Lakeview Oil Company.  
On March 15, well No. 1 of the  
Lakeview Oil Company came in a  
gusher. Its maximum flow per  
hour was 6,500 barrels. It has flowed  
continuously ever since, though in di-  
minishing quantity. The total volume  
produced to date is approximately  
as much as the record of any  
single well in the history of the  
company of the world.

# REMOVAL SALE

## Pianos and Player Pianos

Above is our New Building, 446-448 South Broadway, into  
which we are to move February 15th. Los Angeles does  
not possess a better building of its class—six stories and  
basement, complete in every detail, to be occupied exclu-  
sively by the Geo. J. Birkel Company.

FROM the appearance of our Store—the Store we are now occupying at  
345-347 South Spring Street—you will probably think we are nailed in.  
As a matter of fact, our New Building on Broadway is not  
quite ready for us—but will be by February 15th. The terms of  
our present lease would compel us to vacate the Spring Street  
Store today—but by special arrangement with Mr. A. K. Brauer,  
the Tailor, who is to occupy our present store, we are permitted  
to remain until February 15th. In consideration of this we allow  
Mr. Brauer to tear out our store front, and begin his alterations.  
We are therefore boarded in, having erected a temporary wooden  
protection. For two weeks, in order to overcome this drawback,  
we are offering inducements of a character that will quickly sell  
the remainder of our stock, regardless of this uninviting front.

Every Piano and Player Piano on our floors will be  
sacrificed---Kranich & Bach, Sohmer, Kurtzmann,  
Jewett, Laffargue, Smith & Barnes and other Pianos  
---almost at your own price. Player Pianos, Cabinet  
Piano Players, Organs, Square Pianos---everything  
to go in these last two weeks.

Remember, this is no ordinary sale. A look at our  
store, and the conditions inside, will show you why  
we are forced to do these things. Come and have  
a look for yourself—not at our new store—but at the  
old place we are about to leave, 345-47 S. Spring St.

SOME KRANICH & BACH, SOHMER AND KURTZMANN  
PIANOS, selling regularly at \$800,  
to go at..... \$550  
UPRIGHT PIANOS in the same makes at  
discounts of, each \$150 to..... \$250  
TWENTY-FIVE UPRIGHT PIANOS that sell  
regularly at \$350, to go at..... \$200  
A good, guaranteed Piano  
at..... \$175  
SQUARE PIANOS at,  
each \$50 and..... \$75  
SOME PIANOLA, Angelus, Cecilian and other Cabinet Players  
---these sold at \$250 new,  
at each \$25, \$35 and..... \$50  
USED PIANOS of standard makes  
at \$150, \$175 and..... \$200  
Organs at,  
each \$15 and..... \$25

Terms Arranged. Freight Paid to Out-of-Town Buyers.

## End of Intercollegiate Athletics Near, Say Educators.

LAUD STANFORD'S ACTION  
IN RESTRICTING SPORTS.

Southern College Authorities Portend Serious Develop-  
ments From Cardinal Initiative—Coach Cromwell Says  
There Is More Money in Other Business—Supt. Francis  
Is Emphatic.

BY RANDALL HENDERSON.

J. H. FRANCIS, Superintendent of Schools—"Intercollegiate athlet-  
ics should be abolished entirely. Stanford's action suits me ex-  
actly."

Dr. J. Baer, president Occidental College—"Intercollegiate athletics  
may be eliminated in time; at least, they will be restricted. I agree  
with Dr. Jordan."

Dr. G. F. Bovard, president University of Southern California—  
"Freshmen are not so prominent here, and we are not likely to follow  
Stanford. We need good men in charge of athletics."

Dean Cromwell, coach of U.S.C.—"Scholarship will not be helped  
by Stanford's action, as freshmen athletes are good students generally.  
I expect intercollegiate athletics in the North to be abolished in time.  
I can make more money in business than I can by coaching."

Ralph Noble, faculty director of athletics at L. A. High—"Stan-  
ford's ruling will make little difference in the South. We have no paid  
coaches in the high schools."

Crack Bowlers of Southern California Leagues With High Scores.

Above is Forrest Gilman, champion of the South; C. Myers and C. F. Roop of the Woodlill-Hulse team; W. Young of Venice, and S. P. Dytlinger of the Grand Avenue team.

The prominent educators and athlet-  
ic coaches in Southern California are  
divided in their opinions as to the out-  
come of the action taken by the Aca-  
demic Council at Stanford on Monday,  
when they prohibited further partici-  
pation in intercollegiate athletics by  
freshmen at the recommendation of  
President David Starr Jordan, and  
took up his suggestion to abolish the  
paid coach system.

Superintendent John H. Francis of  
the city schools, and President John  
Willis Baer of Occidental College, both  
expressed themselves as pleased over  
the action of the northern school. Dr.  
George F. Bovard, president of the  
University of Southern California, was  
inclined to stand with Coaches Dean  
Cromwell and Ralph Noble that the  
elimination of freshmen from athletics  
would be impractical for Southern  
California colleges.

All of those interviewed agreed that  
there was little chance of such action  
being taken by the southern schools in  
the near future.

As for the elimination of salaried  
coaches, which was also suggested by  
Dr. Jordan, although not acted upon  
by the Academic Council, this rule has  
already existed in the city high schools  
for some time, but the colleges seem  
averse to taking up with such a propo-  
sition.

The plan has been tried at Occi-  
dental, but was not a success. The  
failure was attributed to the fact that  
the Highland Park school was unable  
to compete with the teams of the salar-  
ied coaches at the other schools, and  
as they did not seem inclined to fol-  
low suit, the Occidental faculty voted  
to go back to the old system.

Superintendent Francis, in discuss-  
ing the matter, said:  
"The action taken by the Stanford  
Council corresponds with my position  
exactly. I believe that intercollegiate  
athletics will be prohibited entirely in  
time and such a state is very much  
to be desired. It will result in a much  
more healthy condition of athletics  
within a school, as the tendency will  
be for every student to take part when  
all of the contests are inter-class af-  
fairs."

There will undoubtedly come a time  
when intercollegiate sports will be to  
a much larger degree restricted if not  
entirely eliminated.

"Taking the freshmen out of inter-  
collegiate contests is much more prac-  
tical in the schools North than in  
Southern California, however. The  
schools are too small here. Take Po-  
mona, Occidental and Whittier, for  
instance; if the freshmen were drawn  
out of the team there would not be  
much left."

"I started the graduate coach sys-  
tem last fall with the idea of eventu-  
ally dropping the professional instruc-  
tors. The other schools did not stand  
back of me, however, not even the  
alumni in my own school, and we have  
now hired professional coaches for the  
future. It was necessary to do so in  
order to stay in the competition with  
the other schools. The southern col-  
leges will have to take uniform action  
in the matter before it can be a suc-  
cess."

President Bovard, at the University  
of Southern California, was rather sur-  
prised at the ruling made at Stanford  
and saw no immediate need for similar  
action here in the South.

"The freshmen here in the South do  
not take part in intercollegiate sport  
to the extent they do in the North," said  
he. "We seldom have separate con-  
tests for the first-year teams outside  
of the school, so that the example of  
Stanford is not likely to be followed  
in the near future."

"I believe that where the right kind  
of instructors can be secured there is  
no need of the student coach as advo-  
cated. We want men of the best  
character to take charge of the school  
athletics and whether they are paid or  
not does not make much difference."

When asked what he would do if  
the professional coaches were elimi-  
nated, Dean Cromwell at U.S.C. said:  
"It won't bother me much. I can  
make more money selling automobiles  
anyway. I don't believe they will  
help athletics much by making the  
change, but it won't make much dif-  
ference to me."

Dean said there was not much  
doubt but that all intercollegiate ath-  
letics would be abolished in time up  
north, but his experience would indi-  
cate that this would not solve the  
question of amateur sports by any  
means.

Ralph Noble, the Los Angeles high  
school coach, remarked that the sal-  
ary coach system was already in

GREAT BOWLING SCORES  
BY GILMAN AND OTHERS.

FORREST GILMAN of Venice, who  
finished at the head of the South-  
ern California Bowling League last  
week with an average of 190 pins for  
sixty games, established a record which  
eclipses any mark made at the national  
meets for a number of years and broke  
all Pacific Coast records.

Gilman was closely followed by C.  
Gayette, G. Ballard, Alf Mackenzie, W.  
Young and S. P. Dytlinger, each of  
whom had an average of better than  
180 pins. The high run of these six  
players is remarkable and it is doubt-  
ful if such a sextette of top-notchers  
can be gotten together in any other  
city in the country.

Unusual interest has been aroused in  
the bowling game in Los Angeles dur-  
ing the last winter and at the present  
time there are five leagues with 240  
bowlers competing in scheduled league  
games for various prizes. One of the  
local proprietors said: "The bowling in  
Los Angeles has increased 80 per cent.  
during the last six months and Los  
Angeles can claim a more high-class  
rollers than any other city."

The Woodlill-Hulse team, which  
heads both the Commercial and the  
Electric leagues, includes two of the  
best bowlers in the city, C. Myers and  
R. F. Roop. The former has main-  
tained high individual score in the  
Commercial league with an average of  
175 pins in seventy games. Roop  
headed the Electric in individual  
standing with 169 pins.

Both of these averages are consid-  
ered high, but in comparison with the  
190-pin average of Forrest Gilman,  
they put that champion in a class by  
himself. Gilman is rangy and rolls  
a speedy ball with plenty of "English."  
His winning feature is his consistency,  
as he seldom ever varies from the 200-  
pin mark.

LUCKY'S HORSES  
PASSING AWAY.Famous Old Thoroughbreds  
Junk of Small Value.Baldwin Heirs Are Out of the  
Racing Business.Disposition of Santa Anita  
Up to George Rose.

BY GREY OLIVER.

"I know my wife is not in favor of  
horse racing and I do not believe her  
sister, Mrs. Stocker, is, and conse-  
quently I do not think there will be  
any more racing by the Baldwin  
heirs."

This was the distinct announcement  
yesterday of Hull McLaughrey, hus-  
band of one of the "Lucky" Baldwin  
heirs and brother-in-law of the other  
principal heir, in connection with the  
passage by the Legislature of the  
Walker anti-betting bill.

"My wife," continued Mr. McLaugh-  
rey, "is not one who would be called a  
'horse woman' in any sense of the  
word and cares nothing for the sport.  
While I cannot speak for Mrs. Stocker,  
I believe she is of the same mind and  
would not in any circumstances con-  
duct a racing stable. Consequently the  
Baldwin heirs may be considered as  
out of the racing business. I do not  
know anything about the future of the  
Arcadia track for George Rose and his  
associates control the majority of the  
stock of the track."

As a matter of fact, the Baldwin  
heirs are rapidly getting rid of the  
horses of that famous stable.  
When old "Lucky" died, the inven-  
tory of his estate showed that he had  
about 300 pedigreed horses, including  
those on the "ranch" and the number  
in the three or four "stables" he had  
leased to various horsemen. There are  
probably not half of that number on  
the ranch now for Administrator Ueh-  
ruh is selling them off indiscriminately  
as best suits his purposes for turning  
the estate into cash.

The most noted horses now on the  
ranch are Roy El Santa Anita, Cru-  
zados, Lisaro and Amigo and what  
they were valued at in the inventory  
would make some of the old-time sports  
sick, if they consider the amount the  
won in bets and purses in their racing  
days. Miss Ford, which died a year  
ago and was a mare that won thousands  
of dollars for her owner and backers in  
the old days, was valued at \$5 for she  
was not worth the money, being very  
decrepit. Roy El Santa Anita, twenty  
years old, and Cruzados, about the  
same age, were put down as being  
worth \$250 each.

This terrific figure was far out of  
proportion as compared with their  
value, but the price was put on them  
merely to keep any one from taking  
away from the track two old help-  
looms that old man Baldwin loved.

While the Baldwin estate does not  
control the Arcadia track, it is reason-  
able to presume that the Rose and Hol-  
land interests which own the majority  
of the stock, will never start another  
horse on the track for horse racing  
without gambling would be like Hamlet  
without a ghost. The new Walker bill  
is supposed to stop the betting and that  
means the end of racing.

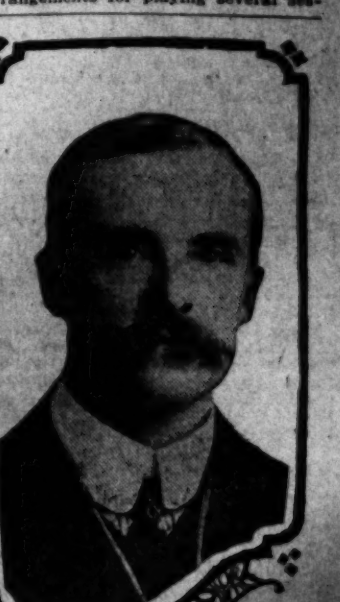

Mr. McLaughrey stated that he  
would like to see the race track and  
the plant generally transferred to some  
country club as it would be an ideal  
location for a polo or pony racing club.  
However, it is up to George Rose to tell  
what will be done with the plant.

He's a Wonder.

CHECKER CHAMP  
HERE TO PLAY.TO MEET TWENTY MEN TONIGHT  
IN SIMULTANEOUS PLAY.

Wonderful Record of England's  
Best Master in His Trip Around the  
World—Has Contested Nearly Four  
Thousand Matches and Lost But  
Seventeen Games.

Alfred Jordan, the champion checker  
player of England, arrived from San  
Francisco yesterday, going directly to  
the rooms of the Chess and Checker  
Club of Southern California in the  
Higgins Building, where he discussed  
arrangements for playing several ses-

Alfred Jordan.

**POLO CHAMPS COMING WEST**  
**Harry Payne Whitney Plans California Trip.**  
**Best Teams in America to Be Contestants Here.**  
**English Champions to Meet Coast Winners.**

BY R. A. WYNN.  
It is expected that Harry Payne Whitney, the well-known millionaire sportsman and polo player of New York, will come to California this winter and bring his world championship polo team with him.  
Paul H. Schmidt, secretary of the Coronado Polo Club, has been in correspondence with Mr. Whitney and other members of the famous All-American team and he expects that very soon the famous sportsman and his team will be kicking up the turf on California polo fields.

Whitney organized his American polo team and with light heart invaded England. He met the greatest teams of England and he expects that very soon the famous sportsman and his team will be kicking up the turf on California polo fields.  
Malcolm Stevenson, a crack polo player and a member of the famous Rookaway polo team, is en route to California and will enter himself in the games to be held here this winter. Cheever Codwin of Coronado team has played with Malcolm Stevenson in the East and says that he is one of the most promising young players in the United States. Mr. Stevenson is to bring with him his stable of polo ponies, which he has bred and used only to the stable of Harry Payne Whitney.

**ALSO TO PLAY.**  
F. McLaughlin of Chicago is another star polo player who arrived at Coronado this week. Mr. McLaughlin has played on some of the most noted teams in America and will undoubtedly become affiliated immediately with one of the California teams.  
The open season for polo is at hand. The Huntington polo team, which held the championship of the West up to last year, when the English team took it away, has disbanded. The English team which carried away the championship of California and of America, will not return this year to defend the title and as a result there is a rush of many teams to fight out their differences on the polo grounds and incidentally to become the logical challengers of the English team when it comes here.

The storm centers of polo are at Pasadena, Riverside and Coronado. These three cities are watching each other like hawks. Each has its polo team and each either has recently held or is planning tournaments. Santa Barbara and Escondido are also vying with a whoop and raising a great cloud of dust.  
At Coronado, however, the center of attraction now seems to be located. Maj. C. Ross, who was captain of the Coronado team during the early portion of the season, has been asked to lead the Coronado team to California and try and wrest some of the honors from teams in this State. It is understood that Maj. Ross has already accepted the challenge and will lead the Coronado team to California within the next ten days.  
**TO IMPORT CANADIANS.**  
Maj. Ross is one of the best players on the Coast and he longs earnestly to get his Canadian team here and whip into such shape that he can take the reins of the California teams. They will practice on the Coronado Polo Club grounds and have been described as the best in the world. Lord Tweedmouth, the English peer who is wintering at Coronado and who has played on the best grounds in the world, Africa and India, says unreservedly that the Coronado grounds are the best he has ever seen.  
Mr. Robinson is a well-known Canadian player who will become a member of Maj. Ross's team. He is expected to be at Coronado within a week.  
Frank J. Mackey, who has done a sensational silver cup, known as the "Mackey Cup," and which has been a much-sought-after prize for the last three years, is en route to California. He will go to Riverside first and then to Coronado where he is expected to remain during the greater portion of the winter months playing polo. Mr. Mackey is a well-known player and his addition to the local polo circle is expected to be of great assistance.

Harry Payne Whitney, millionaire sportsman and captain of the world's champion polo team, who is planning to come to California this winter and bring his team with him.

**BLAMES BETTING FOR ILL-REPUTE.**  
**ANTI-GAMBLING LAW PROVIDES SUFFICIENT PENALTY.**  
Tom McCarrey Believes That Eventual Twenty Round Bouts Will Be Permitted—Says Governor Not Opposed to Boxing—Says Game Must Rise or Fall on Merit.  
"In the first place, I didn't go to Sacramento on my trip North last week," said Tom McCarrey yesterday, "and I don't go into business in the second place. This ought to dispose of any rumor to the effect that I was trying to influence any of the legislators at Sacramento about a prize fight bill."  
McCarrey returned home Monday evening and says that the business that kept him North was to see if he could rent a suitable building in San Francisco that could be used for a small building during the big fair that now seems to be on the way to San Francisco.  
"Why, as a matter of fact I know but a few legislators at Sacramento and I don't know any of them," he said. "I did not go to Sacramento on my trip North last week, and I don't go into business in the second place. This ought to dispose of any rumor to the effect that I was trying to influence any of the legislators at Sacramento about a prize fight bill."  
McCarrey returned home Monday evening and says that the business that kept him North was to see if he could rent a suitable building in San Francisco that could be used for a small building during the big fair that now seems to be on the way to San Francisco.

**NAVAL OFFICERS HIGH ON KITES.**  
(Associated Press Night Report.)  
SANTA BARBARA, Jan. 31.—Lieut. John Rodgers was lifted 400 feet from the deck of the cruiser Pennsylvania today by man-raising kites. The warship was steaming twelve knots against an eight-knot breeze at the time, and Rodgers, suspended from the kite-cable 100 feet astern, made observations and camera views for fifteen minutes. He wiggled the results of his observations to the officers on the ship. The altitude attained by Rodgers is said to be a record for man-lifting kites. The officer was carried up by a train of eleven kites.  
**Hot Bouts.**  
**LIVELY SCRAP ARE EXPECTED.**  
GEORGE MEMISC IS TRAINING HIS BROTHER MIKE.  
Both Lauder and His Opponent Are Planning to Fight Aggressive Battles—Preliminary Boxers Working Hard to Get in Shape—Advantage Seat Sides Indicate Crowd.  
Mike Memisc and Len Lauder, 15 rounds, 132 at 10 a. m.  
Jimmy Austin and Battling Chio, 10 rounds, 107 at 10 a. m.  
Jack Walsh and Tony Rose, 10 rounds, about 105 pounds.  
The boxers in the three-bout programme which the Pacific Athletic Club has arranged for the Vernon arena next Saturday afternoon are rapidly rounding into shape. Mike Memisc has had some great victories in the Middle West and comes to the Coast with a record of which any fighter should be proud. Lauder has given out the tip that he is going to the aggressive every minute of the time Saturday. His opponent has never had a reputation for backing away from any punishment so that they are expected to be at it from the first tap.  
Yesterday Mike had six lively bouts with his brother George. The boys went at it hard and George worked his opponent to a finish. Mike is down to 134½ pounds and will have no trouble in making 132.  
Lauder did road work with Jimmy Austin early in the day and boxed a snappy four rounds with Jack Walsh in the afternoon. Billy Morris, who was scheduled to go a few rounds with Len, did not appear and he left the bag feeling fairly well. He has two pounds to make yet before the morning of the fight.  
Jimmy Austin boxed seven rounds, four with Kid Cleveland and three with Len. He is in pretty good shape already and does not expect to work hard during the remainder of the week.  
The starry Chico did his work at McCarrey's pavilion and showed vast improvement over any performance he has engaged in yet. Many of the fight fans are striking with Len. Jimmy out for the championship and particular interest will center about this go.  
Jack Walsh is plodding along and gradually getting into shape. His ring work is a feature of his training. The husky blacksmith has a good pair of lungs and his sparring with Len Lauder is giving him the experience which he lacked.  
Tony Rose put in a hard afternoon's work at Saville yesterday afternoon.

**WRESTLER IS DEAD.**  
AMARILLO (Tex.) Jan. 31.—Stanley Laak, the famous wrestler of Nebraska, who was injured in a wrestling match here Saturday night with Harry Mayes, died late last night from his injuries.  
**Yellow Soaks.**

**CRACK JAPANESE BALL TEAM IS COMING TO CALIFORNIA.**  
KIO UNIVERSITY of Japan will send a baseball nine to America next spring to compete for the international honors against the best of the American college teams, according to information brought to Los Angeles by David Haslam, recently returned from Japan.  
Once before Japan has had ball teams in the United States, when some of the best teams played here in 1906. At that time the game was in its infancy in Japan, and the Waseda team, though putting up a good game of ball, was badly defeated. The first of the Japanese to play in the United States was almost perfect and their baseball was superb, but the weakness in the box and at the bat lost them their games.  
Since 1906 the great American game has made rapid progress in the Mikado's kingdom, and the Kio nine will show none of the defects of the Waseda team. Kio University has held the championship of the island since the university first entered the field. Waseda was champion of Japan until Kio took up the game. The managers of the U. S. C. White Sox will be in the city next night.

and seemed to be in good condition when he left the training quarters. Tony has a stiff punch in his right hand and he has been careful with his sparring partners, not to "put them to sleep" before the rounds are finished.  
The advance reservations for the thirty rounds scheduled for Saturday are increasing fast and the indications are that a big crowd will witness the affair if weather conditions permit.

**DINNER FOR POTTER.**  
Well-Known Club Men Give a Dinner to Treasurer of Tuna Club.  
Friends of Thomas McD. Potter, treasurer of the Tuna Club, gave a dinner last night in his honor at the Jonathan Club. The dinner was presided over by Col. John E. Stearns. Henry Lowenthal delivered the presentation speech, that made Mr. Potter the possessor of a costly double-barreled sixteen-gauge shotgun; for Mr. Potter is scarcely better known as a duck hunter than as an angler. Mr. Potter has for many years been one of the mainstays of the Tuna Club, spending much time and money in advancing the interests and in promoting sportsmanlike, scientific and practical methods of angling. He is the founder of the Tuna Club, with its extra light tackle, and which has for its motto: "More Sport and Less Fish."  
The hosts were:  
Dr. B. F. Alden, San Francisco; William Banning, Hancock Banning, Charles V. Barton, William Barry, Louis Bree, C. C. Brode, C. G. Conn, Elkhart, Ind.; E. L. Doherty, Dr. N. F. Firth, A. V. Hooper, Boston, Mass.; William M. Hunt, Jr., James A. Keeney, B. O. Kendall, Pasadena; R. B. Kenney, Carl H. Knapp, G. J. Kuhn, Fred Latimer, Edgar E. Le Febvre, Henry Lowenthal, Max Lowenthal, Leroy A. Macomber, Pasadena; Thomas Manning, Ronald J. J. Mellis, Henry Newby, Walter Raymond, Pasadena; G. E. Pillsbury, F. H. Reed, Oakland; J. C. Smith, V. Rider, B. N. Rotherham, San Diego; Roy F. B. Shaver, Clement L. Shinn, John E. Stearns, Biddle Street, Pasadena; D. W. N. Vlasar, Smith Warren, Ben Williams, W. S. Wright, Pasadena; Dr. Charles P. Holder, president of the Tuna Club, is traveling in Europe.

**NEW RACING DATES.**  
Progress From East to West Riveres Order of Grand Circuit Meetings.  
(Associated Press Night Report.)  
NEW YORK, Jan. 31.—Proposal of a new central circuit to open in New York on the Fourth of July and progress from East to West, reversing the present order of things, was the feature of a special meeting here yesterday.

H. E. Edward, secretary of the insurgent association proposed the following schedule: City, Okla., Jan. 17-22; Dover, July 24-29; Syracuse, August 1-5; Buffalo, August 7-12; Cleveland, August 14-19; Columbus, August 21-25; Indianapolis, August 28-September 1; Grand Rapids, September 4-8; Kansas City, September 11-15; Detroit, September 18-22; Columbus, September 25-30; Lexington, October 3-7.

Representatives of New York, Hartford, Boston, Dover, Cleveland, Columbus and Indianapolis approved the plan and Detroit and Syracuse were not pleased with the schedule.  
**BECOMES A LAW.**  
Governor Signs Anti-Gambling Bill and Horse Owners Get Fifteen Days to Clear Out.  
(Associated Press Night Report.)  
SACRAMENTO, Jan. 31.—The Walker anti-gambling bill, passed by the Assembly yesterday, was signed by Governor Johnson at 5:30 o'clock this afternoon. The bill was delivered to the Governor at 5 o'clock.  
"I know pretty well what's in this," said the Governor, "and as I understand the bill became a law. The bill, in its drastic prohibition of gambling in every form, will put an end to racing in the State."  
By an amendment, introduced in the Senate and later agreed upon in the Assembly, the owners of race horses will have fifteen days in which to have their horses from the tracks.

**OLD HORSEMAN DEAD.**  
NEW ORLEANS, Jan. 31.—[Exclusive Dispatch.] James Langley was found dead in bed last night. Death occurred at 10:15 p. m. At the time of his death he was acting secretary and treasurer of the Crescent City Jockey Club. Langley was 57 years of age. He was a native of New Orleans, being formerly associated with the late J. B. Harrison when racing at the Crescent City track. He was a highly respected figure among horse owners and many times was "on the line" making book at southern and western tracks. He had no family.

**REVOLVER STANDING.**  
SPRINGFIELD (Mass.) Jan. 31.—Unofficial returns from the ninth and tenth rounds of the indoor league race of the United States Revolver Association brought the elimination of the last club stay in the race with the Marquette Club of New York. The Newark team met its defeat at the hands of the Smith and Wesson club of the city in the tenth round. A world's record score of 1129 is claimed by the Portland, Ore. club, but it has not yet been declared official.

**ARISTOCRATIC TIN EAR.**  
PHILADELPHIA, Jan. 31.—[Exclusive Dispatch.] Anthony Biele, the perfecting authority with Phila. Phila. a social soiree with Philadelphia Jack O'Brien, and the latter gave him a "tin ear" which he probably be a permanent disfigurement.

**ATTELL MAY NEVER BOX AGAIN BECAUSE OF SERIOUS INJURIES.**  
(BY DIRECT WIRE TO THE TIMES.)  
CLEVELAND, Jan. 31.—[Exclusive Dispatch.]—Not only Abe Attehl's right arm is disabled as the result of his bout last night with Tommy Kilbane, but his left arm is limp and helpless. The forearm is bruised, the cords and tendons being knotted up and swollen. Attehl, more completely over his left arm than over his right, said: "If these cords stiffen up on me, I'm afraid the arm will be useless." He broke my hand a year ago and my physical condition is such that I can't fight for a month but I was fighting in two weeks. I hope to be fighting again in six weeks if my left comes around all right."

Dr. J. V. Gallagher, who treated Attehl after the accident, says that while a bone in the right shoulder was not laid up over six weeks. He also believes that Abe's effectiveness as a fighter will not be impaired. The fracture was somewhat complicated by a dislocation at the start.  
Attehl loses \$700 from the accident. He had two engagements for next week, one with Pat Moore and another with Patsy Kline.  
He was to have been paid \$1000 for the Moore go and \$1700 for battling Kline. Abe believes it was not an accident that has rendered him a temporary cripple.  
"I told Tommy before he wrestled me to the floor to let go, but he evidently saw he had me and thought if he hurt one of my hands somewhat he could beat me. In all my career I have never met a more foul fighter than Tommy Kilbane."  
Attehl left tonight for New York where he will rest until he is able again to appear in the ring. No decision was rendered in the Attehl-Kilbane fight.

Director of Athletics.  
The proposed abolition of paid coaches leaving but no solution of the amateur athletic status of schools and colleges—the appointment of a faculty director of athletics and the conducting of sports by the students themselves. This, of course, does not include the physical culture of the trainer who are entirely different from the coach. The paid coach controls athletics and the students are unable to make a move without his permission and direction. The students should have the opportunity to exercise initiative and to campaign their own games. The faculty director would not act as a coach, as does Ralph Noble at the Los Angeles High School, but would have a supervisory of the subject in general, seeing to it that the students follow the rules of the schools and conduct themselves as true sportsmen.

**EASTERNERS DERIVING FROM THEIR BIG**  
THERE is not an automobile dealer in Los Angeles who will not acknowledge that motor tourists are flocking here in ever increasing numbers. The long drive from prominent people who have either shipped the cars or have purchased the late arrivals in Los Angeles is a record-breaking business.  
Almost every visitor has a 1911 model. The majority of the cars are high-priced, high-power touring cars which are driven over the roads of Southern California in quest of the beauty spots. These will be found even though it is necessary to climb into the clouds to locate ideal resorts.  
Strawberry Valley is in a pocket of the Coast Range. It is necessary to climb a rampart of hills 400 feet in height. The big cars will make the climb, in fact some of them have made it already, and the beauty of the inland country will be the reward of taking in the blue hills of the old land.  
Six-cylinder Winton cars are here in numbers and are still coming. Bankers, capitalists and Mrs. Crocker, the wife of the East are coming West. B. A. Seits and wife and Miss S. Seits, of Kansas City, are passing the winter at the Maryland Hotel. Seits is a mining man, being the former manager of the El Tigre Mine, and now his principal stock holder and director. This is one of the largest gold and silver mines of Spang, Mexico. Seits's greatest pleasure is in driving his 1911 fore-door toy town Winton, which was delivered in Birmingham through the W. D. Howard Motor Car Company.  
Salt Lake, a retired capitalist of New York, accompanied by his wife and daughter are spending the winter at Ocean Park. Miss Lynn is driving her self-driving Winton-six toy town. She expects to tour all over California during the stay here.  
Mr. W. Starnes, a retired capitalist of New York, accompanied by his wife and daughter, arrived in Los Angeles last week. Mr. Starnes, with his 1911 toy town Winton, will tour everywhere throughout California. Mr. Starnes and his party are at the Alhambra Hotel.  
Los Angeles is a little more than a month into the winter season. It is a fact that in the year that he has lived in California, he has not seen a single day of rain. Mr. Starnes is a stockholder in a Seattle steamship company, but he says "Give me Los Angeles and my Winton-six for nothing."

## You Sabe Mr. Wad? Him Catchum Wlong Cue in Chinatown!

## Sporting Comment

## Director of Athletics.

The proposed abolition of paid coaches leaves but one solution of the amateur athletic status of schools and colleges—the appointment of a faculty director of sports by the students themselves. This, of course, does not include the physical educator or the trainer who are entirely different from the coach. The paid coach controls athletics and the students are unable to make a move without his permission and direction. The students should have the opportunity to exercise initiative and to campaign for their own games. The faculty director would not act as a coach, as does Ralph Noble at the Los Angeles High School, but would have a supervision of the subject in general, seeing to it that the students follow the rules of the schools and conduct themselves as true sportsmen.

**Hydroplane Flights.**  
Should Glenn Curtiss attempt a flight from Long Beach to Catalina? It is likely to develop a new phase of aviation for the vicinity of Los Angeles. Heretofore the flights at San Diego have been but experiments; in Los Angeles Harbor practical use of the aeroplane, or rather its hydroplane attachment, would be made. It is supposed to race a fast motorboat from Long Beach to Avalon, using the hydroplane as a hydroplane; that is, the aeroplane will never be lifted from the surface of the water but will move along on and run just as the hydroplane does on land. Should the trip be successful a new mode of travel to Catalina would be made practical in addition to the use of the aeroplane for flights.

**Boxing in Flight Game.**  
Manager McCarney blames betting as the objectionable feature of the boxing game has brought it into disrepute, and is not far wrong. Crooked betting on any business or sport in the world is a blot on the name of the game. There is considerable objection, however, to the long, hard battles which those opposed term as "brutal." It is likely that these features would be

overlooked if betting were not so prominent and if the promoters would put on short-round battles instead of the long, hard fights which come too often. Care should be taken in matching good men, boxers who know how to train and how to bear punishment without being massacred. There are many things to consider in the boxing game. Injury to Abe Attell.

Abe Attell's injury is one which boxing fans have long expected as rough-house fighters often attempted to do the little fighter injury, but up to this time the boxer has evaded their tactics. Attell's cleverness so enraged his opponents that they resorted to actions which they would not attempt against a man of their own fighting class, but when they met Attell they seem to forget their scientific skill and go after him any old way to win. As Attell usually fights larger and stronger men, it requires all his skill to avoid punishment. How he has done so to this date is a mystery to the fans.

**Japanese in Baseball.**  
The Japanese have taken to the game of baseball, as they do to most all American games, and a California player has asked the Chicago Cubs management for a trial. President Murphy, if it is agreeable to Manager Chance, will have the man report for spring practice, and thus introduce the first Japanese into the ranks of professional baseball in this country. There are also a number of Indians playing, and a few negroes would sign and make good if they were given the chance. Should this particular Jap make good, which long ago filed out except in the smaller cities—the half-mile track. There used to be some wonderful performers on the short circuit, notably Edna Powers, the "Queen of the Half-Mile Track," who at 13 years of age did what Country Jay did on the Grand Circuit last year. Some of the races are pulled off on these small tracks, even if the time is not so sensational.

## Motor Tourists.

## EASTERNERS DERIVING PLEASURE FROM THEIR BIG TOURING CARS.

THERE is not an automobile dealer in Los Angeles who does not have knowledge that motor tourists are looking here in ever increasing numbers. The long list of prominent people who have either shipped their cars here or have purchased the late creations in Los Angeles is a record.

Almost every visitor has a 1911 model. The majority of the cars are high priced, high-power touring cars which are driven over the roads of Southern California in quest of the beauty spots. These will be found even though it is necessary to climb into the clouds to visit ideal resorts.

Sanberry Valley is in a pocket of the Coast Range. It is necessary to climb over a rampart of hills 400 feet high. The big cars will make the climb, in fact some of them have made it already, and the beauties of the inland country will be enjoyed by the visitors who are coming here instead of making in the blue hills of the old coast.

Six-cylinder Winton cars are here in numbers and are still coming. Bankers, capitalists and other prominent men of the East are coming West. E. A. Mills and wife and Miss S. M. Hickey, of Kansas City, are passing the winter at the Maryland Hotel, to a moving man, being the former manager of El Tigre Mine, and another, this is one of the largest and most successful mines of Sonora, Mexico, owned by the W. D. Howard Motor Car Company.

Mr. J. E. Higgins, of Glen Rock, Wyo., arrived in Los Angeles last week and was delivered a 1911 Winton-six by the W. D. Howard Motor Car Company. This is her second Winton-six. Mrs. Higgins bought sixty acres of orange grove land near Glendora, and where she expects to spend all her winters.

H. C. Culver and wife arrived from Spokane, Wash., yesterday bringing with them their 1911 Winton-six for the purpose of touring Southern California. Culver is director of the Southern Railway, and president of the Sand Point Lumber & Coal Company of that place.

Non-Frank H. Johnson and wife of San Francisco, are spending the winter in Los Angeles. Johnson is a multi-millionaire and his present Winton-six is the thirty-fourth automobile he has owned for his personal use. He also owns a handsome Winton-six limousine, which he uses when in San Francisco.

George A. Howell, who came here last fall from Des Moines, Iowa, is now in Los Angeles with the elite of Southern California that he says will never go back. Howell is a retired banker and capitalist, and is a resident of Los Angeles.

J. W. Kirkpatrick and family of Sheridan, Wyo., retired sheep rancher, is spending the winter in Long Beach. Kirkpatrick is also a resident of Los Angeles. These owners bring their

health and happiness." The Captain never allows anyone to take the wheel of his car.

Mrs. L. S. Duryee is wintering at Hotel Maryland, in Pasadena. She is the wife of a prominent man of the East, and is the vice-president and manager of the Everett Improvement Company of Everett, Wash. The party includes Captain and Mrs. McFarland and Mrs. W. C. Cox. The party expect to tour the Coast Range before going home.

Clifford Gordon Collins is here from Chicago with a seven-passenger 1911 Winton-six. Collins is a young man on whom the fans have bestowed many favors. Besides directing Collins' footsteps toward Southern California, good fortune has befallen Collins, who is but twenty-one years of age, with a genial disposition, excellent health and a fine physique, and also a Winton-six. This young man is worth a million or more.

George O. Hodges and wife of California, are spending the winter in Los Angeles; they are guests at the Van Nuys.

Charles D. Blaney and wife of San Jose, Cal., drive down to Los Angeles early in the season every winter, in their Winton-six. They own a beautiful open every winter, and live in true just received his 1911 Winton-six.

Mrs. J. E. Higgins, of Glen Rock, Wyo., arrived in Los Angeles last week and was delivered a 1911 Winton-six by the W. D. Howard Motor Car Company. This is her second Winton-six. Mrs. Higgins bought sixty acres of orange grove land near Glendora, and where she expects to spend all her winters.

H. C. Culver and wife arrived from Spokane, Wash., yesterday bringing with them their 1911 Winton-six for the purpose of touring Southern California. Culver is director of the Southern Railway, and president of the Sand Point Lumber & Coal Company of that place.

Non-Frank H. Johnson and wife of San Francisco, are spending the winter in Los Angeles. Johnson is a multi-millionaire and his present Winton-six is the thirty-fourth automobile he has owned for his personal use. He also owns a handsome Winton-six limousine, which he uses when in San Francisco.

George A. Howell, who came here last fall from Des Moines, Iowa, is now in Los Angeles with the elite of Southern California that he says will never go back. Howell is a retired banker and capitalist, and is a resident of Los Angeles.

J. W. Kirkpatrick and family of Sheridan, Wyo., retired sheep rancher, is spending the winter in Long Beach. Kirkpatrick is also a resident of Los Angeles. These owners bring their

ter, John W. Sharpe, president and general manager of the Little Butte Consolidated Mines Company of Phoenix, Ariz., accompanied by his wife, spends his winters in Los Angeles. A. E. Wood, a retired capitalist of North Yakima, Wash., with his family, came to Los Angeles early in the season driving his car from San Francisco. Wood was the founder of the State Fair of Washington. He has been prominent in politics and was representative for several years from Washington. He has also been identified with three different banks, but of late years has retired from active political and business life. Wood drives his own car, claiming his real pleasure comes in the handling of it. F. E. Wells and wife of Buffalo, N.Y., are back again this winter. This year they are in their own home in Hollywood. They have been coming to Los Angeles for the past eleven years. Wells is a retired business man of Buffalo. He still has extensive real estate holdings in that city, as well as being a heavy stockholder in the Lake View Oil Company of California. Ellis L. Rowe, president of the Besseler Manufacturing Company of Troy, N.Y., with his wife and son, Irving, are spending the winter in Pasadena. Rowe spends from December to May in California every year.

## GOSSIP ALONG GASOLINE ROW.

"Doc" Green, manager for the Don Lee Motor Car Company has sold 1921 Cadillacs to date. In the total last night from September 1 to January 31, "Doc" proved his record by showing the list of names and addresses. This is a remarkable showing.

Bert Davis has accepted a position with the Big Four Automobile Company and hereafter will sell Regal cars.

Eylar Fillmore sold three Ford cars during last month. He formerly was a house for steam cars, but says there is nothing like a Ford car as a winner.

P. A. Stierberg, president of the Goodyear Rubber Company, has shipped a Jackson fifty-horse-power touring car here for his own use. He expects to make his headquarters here this winter and will use the big machine for touring.

Charles Cotton, manager for the Los Angeles Motor Car Company, is selling Locomobiles steadily but Rain has interfered with his business, but he expects bigger things than ever when the sun comes out in real earnest.

P. A. Benton is doing a big business on the outside. He is shipping cars to San Diego, Escondido, Riverside, Redlands and San Bernardino and is happy as the money is rolling in steadily, he says.

F. O. Nelson's smiling face looks good nowadays. The Diamond business was never better and "Nels" expects to go hunting Saturday and bag the limit.

Dr. F. S. Hardin has purchased a 1911 Regal touring car. He plans to take the car on his tour of the Coast Range, and he expects to bring the birds home to his friends. He will not shoot them all though.

Benjamin C. Barry, the Peerless and Everett agent in Santa Barbara, is in this city for a brief stay. He says the Everett has made a great hit in the Channel City and he expects to sell fifty there this year. There is also a demand for the high-priced Peerless.

P. A. Rice received his handsome new car Pope-Hartford yesterday. The tour is one of the most striking cars which William R. Ruess has received this year.

William Bush is riding on street cars every day. He says he cannot hold a Pierce-Arrow long enough to get a ride in the machine. In his mind, Bill, you will soon be in Honolulu.

Oscar Werner is working hard every day. There is a great demand for the Simplex and he is endeavoring to fill the demand promptly in every case.

Woods R. Woolwine is at Murietta Hot Springs taking a ten days' rest. He expects to come back ready for a sales campaign which will be a winner for the Cartier.

Ralph Hamlin was busy yesterday and the handsome salesroom of the Franklin agency had a large number of visitors.

## THERE'S A LUCKY HAVEN FOR THE PONIES IN AUSTRALIA.

BY THE MELANCHOLY DANE.

IF THE gentle reformers who have just given horse-racing the coup de grace were in Australia, I can't imagine what they would do. Australians not only tolerate the ponies, but racing goes on to an extent never dreamed of in the wildest Christmas dream of George Rose and Barney Schreiber.

In California, one track is considered by the Legislature to be an over-dose. Around New York City, where they have only one or two tracks, people have an idea there is an overpowering amount of racing in the summer time.

But oh, you Australia! Sydney, the capital of New South Wales and a city of probably 600,000 inhabitants, or about one-eighth the size of New York, has no less than eight race tracks in the country adjacent to it and within easy suburban car distance. Four of these tracks are used almost exclusively for pony racing, which is a fad in Australia, and the other four are what might be called the distance horses, for there are very few ponies run in the country. Those for ponies are Kensington, Ascot, Rosebury Park and Victoria Park, while those for horses are Randwick, Rose Hill, Canterbury Park and Warwick Farm.

Racing is carried on practically every day in the year in some form and each track is allowed twenty-four meetings a year, a "meeting" generally being four days of racing on Saturday, Tuesday, Thursday and Saturday.

## CHECKER CHAMP JORDAN

(Continued from First Page.)

sions of simultaneous games and single games with local experts. The first simultaneous exhibition will be given tonight in the clubrooms when it is expected that he will engage more than a score of city players. Individual play will be had during the afternoon.

Jordan, in the undisputed champion of England, and by many thought to be on his record the equal of Richard Jordan of Scotland, who, since the death of Chas. F. Barker, has been regarded as the champion of the world. Alfred Jordan and his Scottish namesake have met in contest, England against Scotland, about ten times, pitted against each other at the top board in the annual matches between the two countries, and every game has resulted in a draw.

The prestige of the Englishman has been increased by his record-breaking scores in the Scotch tour, the most recent during which he has contested nearly 400 games without losing a single round-the-board party, and has lost a total of only seven in simultaneous play. Jordan, left London April 15 last, with Los Angeles as his goal, as he frankly says, meeting the best players of various countries en route with the following results:

Victoria, Australia	Won	Lost	Drawn	Total
New South Wales	2	3	122	127
Queensland	1	1	24	26
New Zealand	1,541	5	401	1,947
San Francisco	155	0	137	292
Totals	2,588	27	284	3,899

On his return to San Francisco, Jordan will play a match with Drilling, the Coast champion, in which twenty-four set games will be contested at the rate of four daily, the prize being a subscription trophy, which the British master is expected to add to his large collection.

It is understood that all draught players are free to meet Jordan at the clubrooms for participation in these exhibitions.

## MORAN BEATS REYNOLDS.

NEW YORK, Jan. 31.—[Exclusive Dispatch.] Frank Moran, the most recent addition to the vast army of "white man's hopes," tonight knocked out Jack Reynolds in the fourth round of their scheduled ten-round bout, at New York's gymnasium. A right swing to the jaw laid out Reynolds.

CITIZENSHIP TO BE PEDIGREED.

Coal Producer Wants Great Cast for Drama.

He Will Hurry Up the Eastern Presentation.

Chicago May See Arthur's Play in Sixty Days.

BY JULIAN JOHNSON.

It has already been announced in the Times that Oliver Morosco will produce "The Fox" in the East.

Some have the idea that Mr. Morosco is venturing his crafty character play in New York, about the middle of next autumn.

Mr. Morosco is going to grab time only by the forelock but by the same means, take advantage of a very bad dramatic season, and present "The Fox" in Chicago in about sixty days.

In a few weeks the total manager will have to leave for the East to verify the ideal and quite remarkable cast he is assembling for the production.

"The Fox" frames up on its Chicago stage as it appears in respect to the whole country.

The matter of actual time and place is probably decided this week.

On the arrival of John Cort, the great big man of the theater as far as the anti-syndicate forces are concerned, Mr. Cort has a theater in Chicago, controls a number of other theaters in the eastern cities, and in West rules as thoroughly over his story as does a checker-player over black-and-white squares.

Mr. Morosco, as the Pink announced in a week, will play Peter Delaney in a western production of "The Fox."

The rest of the cast Mr. Morosco only regards as the one he would like to have, although circumstances of previous engagements may prevent the actual participation of any of the following:

For the role of Roger Delaney, played by David M. Hartford, stage favorite.

For the role of the detective, Burton, played by Peter Lang, either E. Holland or George Woodward.

For the role of Mrs. Delaney, played by Louise Royce, Marie Walcott.

For the part played here by Charles Gilpin, Jameson Lee Finney.

For the leading woman, May Buckley, or a young leading actress of Miss Kelly's ingenious type.

Mr. Pawcett last appeared in Los Angeles in "The Great John Ganton." He is finally within the lines of Los Angeles, and has laid down in his description his own character, and should give a fine performance.

The veteran E. M. Holland is the latest detective of the American age. George Woodward, who is peculiarly ideal for this part, is equally polished, and intensely subtle. He played a season here several years ago.

Amos Lee Finney has been doing a number of studies right along the line of "The Fox," nervous, alert, and has made a strong and real time for himself in just that sort of thing.

Marie Walcott is a genuine "stage dame," of whom there are few in the artistic nation of comedians, and as well innately bred, she combines a sort of humor with fine bearing and broadness.

In the name of May Buckley is mentioned merely to illustrate the type of a few deemed necessary by Arthur Morosco, and Manager Morosco, whose and attractive, Miss Buckley has been a sort of miniature Amos Lee during her few seasons in Los Angeles.

Meanwhile, notwithstanding plans for an eastern presentation, "The Fox" will enter its fourth week next week.

"The Fox" is a sort of Elvador for the audience for the single setting has been moved, in any of its parts, to the day of the first performance.

THE CRACK WOODHILL-HULSE TEAM.

he crack Woodhill-Hulse team went to defeat before the Western Electric last night in the Electric Bowl at Brunswick Alley.

In the Brunswick League the College Inn team defeated the Swetlands by a margin. The score:

ROD AND REEL CLUB RULES CONFORM WITH CATALINA'S.

BY EDWIN L. HEDDERLEY.

RIGHT TACKLE sea anglers who in the past have been caused some annoyance by discrepancy in tournament conditions of the Southern California Rod and Reel, and the Catalina Tuna Club, will be glad to learn that henceforth eligibility in the one carries with it qualification to compete in the other.

This does not mean that a man who is a member of the one club is therefore a member of the other; merely that the tackle which qualifies in the light-tackle and three-class classes of the Southern California Rod and Reel Club qualifies exactly with the Tuna Club specifications, and that the weights of fish for the various classes of trophy buttons have been brought together in all varieties of fish mutually recognized by the two clubs.

The Tournament Committee of the Southern California Rod and Reel Club, which is under the guidance of Bernard N. Rothman, who caught the first big yellowtail on Three-six at Clemente, a 41 1/2-pounder—has wrestled with a number of tough problems this winter relative to fishing, and has decided to make a few changes.

The Rod and Reel Club conducts a tournament winter and summer now, making a conspicuous performance in the fishing game. The winter tournament is in progress, and a number of unusually large fish have been entered, notably the winter tournament in the summer.

The Rod and Reel Club prize tournament for merchandise is limited only to a nine-rod limit, and any weight of rod not less than six feet in length over all. Prior to the January meeting it was decided to adopt the Tuna Club standard and insist only on the line being made of the

as "No. 50," and which the trade quarantees not to exceed two and one-half pounds per strand. It is not thought many lines will equal the figure, which is named by the makers as the ultimate possibility and last word in strength of lines. As the old standard was two pounds per strand with a two-pound total margin of error on the line, it was feared this opening of the line restrictions entailed a step backward, and the old Three-class rule is the thing that must be limited. A premium is to be placed upon skill in handling the tools of the amateur angler's trade. The same rule holds in the Three-class classification also. The prediction is freely made that lines will work out somewhat stronger under the new classification; but inasmuch as the clubs could not afford to put a premium upon the making of a line inferior to the best the factories could produce, this was regarded as a necessary evil.

The Three-four-five class, which is the ultra refinement in marine angling, proved a stumbling block to the Rules Committee owing to the fact that the three-rod line is made of Japanese grass, and is limited to seven and a half pounds breaking strain when tested in fifteen-foot lengths. The Tuna Club does not recognize this class as a rod and reel class, and the Rod and Reel Club brethren constitute a law unto themselves.

A provision was passed by the Tournament Committee requiring all catches made to be turned in for record within three days of date of making catch, it being desired to discontinue the practice of holding out records for a long time after they have been made, as has occurred in the past.

AN AUSTRALIAN PROMOTER.

Hugh McIntosh, the Australian fight promoter, has evidently not made a success of his big boxing club in London, for he is going to close it down the latter part of next month and return to his home in Australia. This information comes from Al Lippe, manager of Harry Lewis, the Philadelphia fighter now in London. Lewis is training for a twenty-round fight with Johnny Summers, the English fighter, which will take place at McIntosh's club on next Wednesday night. Lippe says that McIntosh tired of the game there and after the San Langford-Bill Lang fight on February 1,

FTRING ROADS  
IN THE FOREST.FORD RECEIVED AT SEQUOIA  
HEADQUARTERS.This is to be done in order to  
Place the Greatest Amount of  
Blaze at the Disposal of the Cat-  
tenmen—Experiments of Last Two  
Years Show Value of Reseeding.

(Special Correspondence of The Times.)

HOT SPRINGS, Jan. 31.—General  
controversy have been issued by the De-  
partment of the Interior to the office  
Superintendent of the Sequoia  
Forest, whose headquarters are at Hot  
Springs, in which it is stated that next  
summer the start will be made upon  
extensive series of additional work on  
the roads of the forest in order to place  
the greatest amount of range at the  
disposal of the cattlemen.In carrying out this plan, roads will  
be built throughout the forest in every  
section, making it possible to put  
cattle upon the hills at any point with-  
in the boundaries of the forest.  
Experiments which have been car-  
ried on for the last two years have  
shown the value of reseeded cer-  
tain areas in the hills. During the  
last several seasons, small forest fires,  
which have burned out underbrush,  
have burned the early feed. It  
has been found feasible to collect the  
seed of the alfalfa plant, commonly  
known as "alfalfa," which is a very  
valuable of all natural forage  
plants, several hundred pounds having  
been secured. This is to be used to  
seed the hills before the start of the  
present rainy season, as soon  
as the snow has melted away sum-  
mertime.

PLANS FOR WATER STORAGE.

City Attorney of Porterville Prepares  
Irrigation Bill Designed to Provide  
For Floods, Now Going to Waste.

(Special Correspondence of The Times.)

PORTERVILLE, Jan. 31.—George G.  
Murry, City Attorney and a leading  
member of the Tulare county bar, an  
acknowledged expert on the California  
water laws, has prepared an irrigation  
bill which he is submitting to the Leg-  
islature and which he hopes will be  
passed and put into such a  
favorable light before the Legislature  
at a start will be made on the sys-  
tem which he hopes to have carried  
out.Murry's bill provides for the State  
to assume the water of the various streams  
of the water of the early spring and  
later sold during the year.  
This bill was suggested to Mr. Murry  
by a statement from the California  
Irrigation and Reclamation Commission  
which he is submitting to the Leg-  
islature and which he hopes will be  
passed and put into such a  
favorable light before the Legislature  
at a start will be made on the sys-  
tem which he hopes to have carried  
out.Murry's bill provides for the State  
to assume the water of the various streams  
of the water of the early spring and  
later sold during the year.

tions, and to adopt  
new agricultural methods, he should  
be given all the advantages of our  
knowledge, for it is he that joins with  
the State in its endeavor to make this  
the richest in the world.The production from the soil today  
means more than the production of  
yesterday. It means the prevention of  
the starvation of the increasing popu-  
lation of the world, and it means the  
feeding of those at the wheels of pro-  
gress, those who are making the world  
advance. Had some of the millions  
of dollars—without any criticism—  
that have been expended on libraries  
and colleges, been spent for the cul-  
tivation of acres of land upon which  
poor and worthy people could  
become self-supporting and inde-  
pendent, I am of the firm opinion that  
within less than a quarter of a cen-  
tury the wonderful benefit would have  
resulted from the training in the work  
of producing from the soil.Today there is in many sections of  
the United States insufficient land  
from which to produce the vegetable  
food required for the local population.  
It will not be long until every avail-  
able piece of land will have to be cul-  
tivated in order to take care of the  
rapidly increasing population. Already  
there are abandoned sections of the  
lands of congested sections for less  
thickly settled countries in order to  
get larger tracts to till.Within the far-ranging boundaries of  
California and other Western  
States undeveloped lands surpassed  
anywhere else offer a harbor for those  
who, realizing the meaning to the  
world of getting "back to the soil,"  
are anxious to take a "hold." But,  
as I have said, these people are  
strangers in a strange land, and they  
need some coaching and are willing to  
accept it. They need a "hand" and  
Products Exposition will do unbound-  
edly good along this line.Not only do the new people of our  
State need education. We are pro-  
gressive and progression is the result  
of accepting new ideas, and from  
this it follows that all get ideas  
that will help us. Cultivating the land  
is not a slipshod, haphazard, do-  
it-yourself occupation, but one that  
requires the greatest of study and care  
and the most advanced methods of do-  
ing things. The tilling of the soil is  
science and the methods which are  
the successful ones are the results of  
study.Not only will the big rancher be  
benefited by this show, but from it  
the man with only a city lot in veg-  
etable will get ideas which will make  
his work more interesting and profit-  
able.This exposition will bring all people  
interested in land together and  
make them interested mutually. The  
land will learn what it needs and  
the tiller of the land needs and wants,  
and the things will be learned which  
are to be accomplished. Success to the  
show, for it means more than many  
will realize. It is all over.LESLIE H. FILLMORE,  
Consulting Horticulturist.LOS ANGELES, Jan. 30.—(To the  
Editor of The Times.) In 1909 the  
Legislature passed a new section to the  
Code of Civil Procedure, numbered  
616, by the terms whereof a judge, or  
a majority of the judges of a Superior  
Court, may, at any time, and at their  
discretion, whenever in their opinion  
the public interests so justify or re-  
quire, hold an "extra session" of such  
court, at any time and at any place.This section of the law, which was  
passed in 1909, has been the subject  
of much discussion and controversy.  
It has been claimed that it is a  
violation of the constitution, and that  
it is an interference with the right of  
the people to elect their judges.  
It has also been claimed that it is  
an interference with the right of the  
people to elect their judges.

Twenty-two Miles From Mexico

Refugee to Frightened Mexican

Refugee at Calexico on American

BY JOHN METZ

[BY DIRECT WIRE TO THE

MEXICO, Feb. 1.—(Exclusive Dis-  
patch.) After three days spent as  
refugees in California, the co-  
officials of Mexican ventured over-  
board at 2 o'clock this afternoon  
in two hours of duty. They  
since that tomorrow and hence-  
forth will be at their posts daily  
from 8 a.m. to 5:30 p.m. Other-  
wise all remains No Man's Land.There are no police and no one of  
city is in evidence. Even the  
work system, dependent upon  
that elevates the supply into  
the vats from the irrigation  
have been unmanned since the  
boots invasion of reds last Sun-  
day conditions are accordingly  
full. Settling at rest all rumors  
the near-by locality of rebel  
and imminent of another at-  
tack. The Times' staff correspondent,  
a photographer, has spent the  
portion of two days in fol-  
lowing by horseback the insurgent  
troops.The reports so obtained the  
officials have depended on in-  
formation of their plans, having found  
insurgent Mexicans willing to ven-  
ture about duty.The insurgent troops are to towns being  
fought by the hostile troops. The  
the natives. The Times' cor-  
respondent has proved that the in-  
surgent troops are moving south-  
ward, still moving southward.  
reassurance is accountable for  
the loyalty of the officials to  
the Mexican is normally a town  
population. Sunday nightThe first gun  
shots were heard  
when citizens of  
the town were  
fired upon by  
the insurgents.
